THE PEOPLE OF THE STATE OF CALIFORNIA DO ENACT AS FOLLOWS:

SECTION 1. Article 6.4 (commencing with Section 92657) is added to Chapter 6 of Part 57 of Division 9 of Title 3 of the Education Code, to read:

Article 6.4. Animal Shelter Assistance Act

92657. The Legislature finds and declares all of the following:

(a) In 1998, the State of California enacted Senate Bill 1785 (Chapter 752 of the Statutes of 1998) to create new minimum standards for California animal shelters and establish the state's policy that no adoptable or treatable animal should be euthanized.

(b) Since 1998, many California communities have made meaningful strides to reduce the deaths of homeless animals. Public and private sources have funded more low-cost programs for dog and cat spaying and neutering. Animal shelters have sought to modernize their facilities and practices to keep animals healthier during their time at the shelter. Public education campaigns have promoted the importance of adopting pets, and a growing number of private rescue groups have been formed, increasing the degree to which they assist shelters in finding new homes for animals.

(c) Although the number of deaths in California's animal shelters fell from more than 500,000 in 1998 to an estimated 180,000 in 2018, the state's longstanding policy goal has not yet been achieved in every community.

(d) The University of California houses the nation's premier animal sheltering research, service, and teaching program. The shelter medicine program at the University of California, Davis promotes a welfare-centric, life-saving approach to the management of animals in shelters, focused on prevention and grounded in science. The program has been working with shelters across California since its inception, providing advice covering facility design, shelter management, animal husbandry, and myriad veterinary health issues that are unique to sheltering environments.

(e) With an intentional focus on and partnership with communities around California, the state will be well positioned to achieve the state's policy goal that no adoptable or treatable animal should be euthanized.

92658. (a) It is the intent of the Legislature that a five-year program, which shall be known as the Animal Shelter Assistance Program, be established to support the state's policy goal that no adoptable or treatable animal is euthanized, and that the program be administered by the University of California pursuant to all of the following principles:

(1) The program shall provide support to all California animal shelters in the form of outreach, regional conferences, and provision of web-based resources based on current best practices.

(2) The program shall offer in-person assessments and in-depth online training to California city, county, or city and county animal control agencies or shelters, societies for the prevention of cruelty to animals, and humane societies, upon request and as feasible.

(3) As a supplement to its outreach and programmatic support, the program shall administer a grant program to aid implementation of best practices in California animal shelters. All funds shall be awarded on the basis of need as determined by an open, competitive process that ensures objectivity, fairness, and sustainability. All California

city, county, or city and county animal control agencies or shelters, societies for the prevention of cruelty to animals, and humane societies shall have access and opportunity to voluntarily compete for the funds. The program shall do both of the following:

(A) Develop criteria, procedures, and accountability measures as may be necessary to implement the grant program.

(B) Administer the grant program to ensure that priority is given to underserved populations, including both urban and rural areas and low-income communities, where achievement of the state's goal that no adoptable or treatable animal is euthanized has not yet been met.

(4) For purposes of this section, a society for the prevention of cruelty to animals or a humane society shall be a California corporation, duly incorporated in the State of California, in active status, as described on the business search page of the Secretary of State's internet website, and exempt from federal income taxation as an organization described in Section 501(c)(3) of the Internal Revenue Code.

(5) For purposes of this section, the program is encouraged to prioritize assistance for California city, county, or city and county animal control agencies or shelters, societies for the prevention of cruelty to animals, and humane societies that are current on relevant data reporting required under law, and that offer the greatest likely return on one-time investment of state funds.

(b) In designing and promoting the services outlined in subdivision (a), the program shall seek input from relevant stakeholders to ensure that program services and grants effectively reach a wide geography throughout the state, and that regions in northern, central, and southern California, including both urban and rural areas, are adequately considered, with an emphasis on addressing the lifesaving needs within these regions.

(c) The program may give additional consideration to working with communities that do any of the following:

(1) Seek to maximize the number of animals whose lives can be saved.

(2) Demonstrate partnerships among public, private, corporate, or nonprofit entities.

(3) Emphasize volunteer engagement and community outreach components for purposes of increasing the sustainability of the program's investments.

(d) It is further the intent of the Legislature that, on or before March 31, 2024, the University of California shall report to the Department of Finance and relevant policy and fiscal committees of the Legislature, programmatic and financial information on the preceding two calendar years of the program, including information on the grants made, pending grants, program accomplishments, and the future direction of the program. These reports shall be submitted in compliance with Section 9795 of the Government Code.

(e) Subject to the conditions and requirements established elsewhere in statute, the State Department of Public Health and the Department of Food and Agriculture shall provide to the program, upon proper request, data that will help ensure effective administration of the program.

(f) Toward these ends, the Legislature requests the Regents of the University of California to establish the Animal Shelter Assistance Program and direct the University

of California, Davis Koret Shelter Medicine Program to administer the program pursuant to, and consistent with, the principles and goals stated in this article.

## LEGISLATIVE COUNSEL'S DIGEST

Bill No. \_\_\_\_\_  
as introduced, \_\_\_\_\_.  
General Subject: University of California: Animal Shelter Assistance Act.

Existing law establishes the University of California, under the administration of the Regents of the University of California, as one of the segments of public postsecondary education in this state. The University of California comprises 10 campuses, located at Berkeley, Davis, Irvine, Los Angeles, Merced, Riverside, San Diego, San Francisco, Santa Barbara, and Santa Cruz.

This bill would enact the Animal Shelter Assistance Act. The bill would express the intent of the Legislature that the regents establish a 5-year program, known as the Animal Shelter Assistance Program, to support the state's policy goal that no adoptable or treatable animal is euthanized by providing grants to government animal control agencies or shelters, societies for the prevention of cruelty to animals, and humane societies, as specified. The bill would request the regents to establish the program in accordance with specified principles and goals, to be administered by the University of California, Davis, Koret Shelter Medicine Program.

Vote: majority. Appropriation: no. Fiscal committee: yes. State-mandated local program: no.
