With the exception of alternative schools, all schools within a local educational agency that fail to meet the requirements of Sections 44258.9 and 60900 shall be included on the list for the applicable reporting cycle.

(III) The list of schools compiled pursuant to clause (i) shall exclude alternative schools within the meaning of subdivision (d) of Section 52052 and other schools accepted for participation in the Dashboard Alternative School Status program by the department.

The report may be provided to the governing board of the school district. If the report is provided to the school district, it shall be presented at a regularly scheduled meeting held in accordance with public notification requirements. The county superintendent shall post the report on the internet website of the county superintendent. The report shall be removed from the internet website when the county superintendent verifies the repairs have been completed.

(d) Distribute all laws, reports, circulars, instructions, and blanks that the county superintendent may receive for the use of the school officers.

(e) Annually, on or before September 15, present a report to the governing board of the school district and the Superintendent regarding the fiscal solvency of a school district with a disapproved budget, qualified interim certification, or a negative interim certification, or that is determined to be in a position of fiscal uncertainty pursuant to Section 42127.6.

(f) Keep in the office of the county superintendent the reports of the Superintendent.

(g) Keep a record of the official acts of the county superintendent and of all the proceedings of the county board of education, including a record of the standing, in each study, of all applicants for certificates who have been examined, which shall be open to the inspection of an applicant or an authorized agent of the applicant.

(h) Enforce the course of study.

(i) (1) Enforce the use of state textbooks and instructional materials and of high school textbooks and instructional materials regularly adopted by the proper authority in accordance with Section 51050.

(2) For purposes of this subdivision, sufficient textbooks or instructional materials has the same meaning as in subdivision (c) of Section 60119.

(3) (A) Commencing with the 2022–23 school year, if a school is identified as specified in subparagraph (A) of paragraph (2) of subdivision (c), the county
superintendent specifically shall review that school at least annually as a priority school. A review conducted for purposes of this paragraph shall be completed by the fourth week of the school year.

(B) In order to facilitate the review of instructional materials before the fourth week of the school year, the county superintendent in a county with 200 or more schools that are identified as specified in subparagraph (A) of paragraph (2) of subdivision (c) may use a combination of visits and written surveys of teachers for the purpose of determining sufficiency of textbooks and instructional materials in accordance with subparagraph (A) of paragraph (1) of subdivision (a) of Section 60119 and as defined in subdivision (c) of Section 60119. If a county superintendent elects to conduct written surveys of teachers, the county superintendent shall visit the schools surveyed within the same academic year to verify the accuracy of the information reported on the surveys. If a county superintendent surveys teachers at a school in which the county superintendent has found sufficient textbooks and instructional materials for the previous two consecutive years and determines that the school does not have sufficient textbooks or instructional materials, the county superintendent shall, within 10 business days, provide a copy of the insufficiency report to the school district as set forth in paragraph (4).

(C) For purposes of this paragraph, “written surveys” may include paper and electronic or online surveys.

(4) If the county superintendent of schools determines that a school does not have sufficient textbooks or instructional materials in accordance with subparagraph (A) of paragraph (1) of subdivision (a) of Section 60119 and as defined by subdivision (c) of Section 60119, the county superintendent shall do all of the following:

(A) Prepare a report that specifically identifies and documents the areas or instances of noncompliance.

(C) Provide the school district with the opportunity to remedy the deficiency. The county superintendent shall ensure that the deficiency is remedied no later than the second month of the school term.

(D) If the deficiency is not remedied as required pursuant to subparagraph (C), the county superintendent shall request the department to purchase the textbooks or instructional materials necessary to comply with the sufficiency requirement of this subdivision. If the department purchases textbooks or instructional materials for the school district, the department shall issue a public statement at the first regularly scheduled meeting of the state board occurring immediately after the department receives the request of the county superintendent and that meets the applicable public notice requirements, indicating that the district superintendent and the governing board of the school district failed to provide pupils with sufficient textbooks or instructional materials as required by this subdivision. Before purchasing the textbooks or instructional materials, the department shall consult with the school district to determine which textbooks or instructional materials to purchase. The amount of funds necessary for the purchase of the textbooks and materials is a loan to the school district receiving the textbooks or instructional materials. Unless the school district repays the amount
owed based upon an agreed-upon repayment schedule with the Superintendent, the
Superintendent shall notify the Controller and the Controller shall deduct an amount
equal to the total amount used to purchase the textbooks and materials from the next
principal apportionment of the school district or from another apportionment of state
funds.

(j) Preserve carefully all reports of school officers and teachers.

(k) Deliver to county superintendent’s successor, at the close of the county
superintendent’s official term, all records, books, documents, and papers belonging to
the office, taking a receipt for them, which shall be filed with the department.

(l) (1) Submit two reports during the fiscal year to the county board of education
in accordance with the following:

(A) The first report shall cover the financial and budgetary status of the county
office of education for the period ending October 31. The second report shall cover
the period ending January 31. Both reports shall be reviewed by the county board of
education and approved by the county superintendent no later than 45 days after the
close of the period being reported.

(B) As part of each report, the county superintendent shall certify in writing
whether or not the county office of education is able to meet its financial obligations
for the remainder of the fiscal year and, based on current forecasts, for two subsequent
fiscal years. The certifications shall be classified as positive, qualified, or negative,
pursuant to standards prescribed by the Superintendent, for purposes of determining
subsequent state agency actions pursuant to Section 1240.1. For purposes of this
subdivision, a negative certification shall be assigned to a county office of education
that, based upon current projections, will not meet its financial obligations for the
remainder of the fiscal year or for the subsequent fiscal year. A qualified certification
shall be assigned to a county office of education that may not meet its financial
obligations for the current fiscal year or two subsequent fiscal years. A positive
certification shall be assigned to a county office of education that will meet its financial
obligations for the current fiscal year and subsequent two fiscal years. In accordance
with those standards, the Superintendent may reclassify a certification. If a county
office of education receives a negative certification, the Superintendent, or the
Superintendent’s designee, may exercise the authority set forth in subdivision (d) of
Section 1630. Copies of each certification, and of the report containing that certification,
shall be sent to the Superintendent at the time the certification is submitted to the county
board of education. Copies of each qualified or negative certification and the report
containing that certification shall be sent to the Controller at the time the certification
is submitted to the county board of education.

(2) All reports and certifications required under this subdivision shall be in a
format or on forms prescribed by the Superintendent, and shall be based on standards
and criteria for fiscal stability adopted by the state board pursuant to Section 33127.
The reports and supporting data shall be made available by the county superintendent
to an interested party upon request.

(3) This subdivision does not preclude the submission of additional budgetary
or financial reports by the county superintendent to the county board of education or
to the Superintendent.
(4) The county superintendent is not responsible for the fiscal oversight of the community colleges in the county, however, the county superintendent may perform financial services on behalf of those community colleges.

(5) A county office of education having a negative or qualified certification, or classified as qualified or negative by the Superintendent, shall continue to be classified as qualified or negative until the next report required under this subdivision is filed.

(m) If requested, act as agent for the purchase of supplies for the city and high school districts of that county.

(n) For purposes of Section 44421.5, report to the Commission on Teacher Credentialing the identity of a certificated person who knowingly and willingly reports false fiscal expenditure data relative to the conduct of an educational program. This requirement applies only if, in the course of normal duties, the county superintendent discovers information that gives the county superintendent reasonable cause to believe that false fiscal expenditure data relative to the conduct of an educational program has been reported.

(o) If any activities authorized pursuant to this section are found to be a state reimbursable mandate pursuant to Section 6 of Article XIII B of the California Constitution, funding provided for school districts and county offices of education pursuant to Sections 2574, 2575, 42238.02, and 42238.03 shall be used to directly offset any mandated costs.

SEC. 2. Section 2574 of the Education Code is amended to read:

2574. For the 2013–14 fiscal year and for each fiscal year thereafter, the Superintendent annually shall calculate a county local control funding formula for each county superintendent of schools as follows:

(a) Compute a county office of education operations grant equal to the sum of each of the following amounts:

(1) Six hundred fifty-five thousand nine hundred twenty dollars ($655,920).

(2) One hundred nine thousand three hundred twenty dollars ($109,320) multiplied by the number of school districts for which the county superintendent of schools has jurisdiction pursuant to Section 1253.

(3) (A) Seventy dollars ($70) multiplied by the number of units of countywide average daily attendance, up to a maximum of 30,000 units.

(B) Sixty dollars ($60) multiplied by the number of units of countywide average daily attendance for the portion of countywide average daily attendance, if any, above 30,000 units, up to a maximum of 60,000 units.

(C) Fifty dollars ($50) multiplied by the number of units of countywide average daily attendance for the portion of countywide average daily attendance, if any, above 60,000, up to a maximum of 140,000 units.

(D) Forty dollars ($40) multiplied by the number of units of countywide average daily attendance for the portion of countywide average daily attendance, if any, above 140,000 units.

(E) For purposes of this section, countywide average daily attendance means the aggregate number of annual units of average daily attendance within the county attributable to all school districts for which the county superintendent of schools has jurisdiction pursuant to Section 1253, charter schools authorized by school districts for which the county superintendent of schools has jurisdiction, and charter schools authorized by the county superintendent of schools.
(4) For the 2014–15 fiscal year and each fiscal year thereafter, adjust each of the rates provided in the prior year pursuant to paragraphs (1), (2), and (3) by the percentage change in the annual average value of the Implicit Price Deflator for State and Local Government Purchases of Goods and Services for the United States, as published by the United States Department of Commerce for the 12-month period ending in the third quarter of the prior fiscal year. This percentage change shall be determined using the latest data available as of May 10 of the preceding fiscal year compared with the annual average value of the same deflator for the 12-month period ending in the third quarter of the second preceding fiscal year, using the latest data available as of May 10 of the preceding fiscal year, as reported by the Department of Finance.

(5) Commencing with the 2022–23 fiscal year, add one hundred seventy-five thousand dollars ($175,000) to the amount specified in paragraph (2), as that rate was adjusted pursuant to paragraph (4).

(6) Commencing with the 2022–23 fiscal year, add fourteen dollars ($14) to each of the amounts specified in subparagraphs (A) to (D), inclusive, of paragraph (3), as those rates were adjusted pursuant to paragraph (4).

(b) Determine the enrollment percentage of unduplicated pupils pursuant to the following:

(1) (A) For the 2013–14 fiscal year, divide the enrollment of unduplicated pupils in all schools operated by a county superintendent of schools in the 2013–14 fiscal year by the total enrollment in those schools in the 2013–14 fiscal year.

(B) For the 2014–15 fiscal year, divide the sum of the enrollment of unduplicated pupils in all schools operated by a county superintendent of schools in the 2013–14 and 2014–15 fiscal years by the sum of the total enrollment in those schools in the 2013–14 and 2014–15 fiscal years.

(C) For the 2015–16 fiscal year and each fiscal year thereafter, divide the sum of the enrollment of unduplicated pupils in all schools operated by a county superintendent of schools in the current fiscal year and the two prior fiscal years by the sum of the total enrollment in those schools in the current fiscal year and the two prior fiscal years.

(D) (i) For purposes of the quotients determined pursuant to subparagraphs (B) and (C), the Superintendent shall use a county superintendent of schools’ enrollment of unduplicated pupils and total pupil enrollment in the 2014–15 fiscal year instead of the enrollment of unduplicated pupils and total pupil enrollment in the 2013–14 fiscal year if doing so would yield an overall greater percentage of unduplicated pupils.

(ii) It is the intent of the Legislature to review each county office of education’s enrollment of unduplicated pupils for the 2013–14 and 2014–15 fiscal years and provide one-time funding, if necessary, for a county office of education with higher enrollment of unduplicated pupils in the 2014–15 fiscal year as compared to the 2013–14 fiscal year.

(E) For purposes of determining the enrollment percentage of unduplicated pupils pursuant to this subdivision, enrollment in schools or classes established pursuant to Article 2.5 (commencing with Section 48645) of Chapter 4 of Part 27 of Division 4 of Title 2 and the enrollment of pupils other than the pupils identified in clauses (i) to (iii), inclusive, of subparagraph (A) of paragraph (4) of subdivision (c), shall be excluded from the calculation of the enrollment percentage of unduplicated pupils.
(F) The data used to determine the percentage of unduplicated pupils shall be final once that data is no longer used in the current fiscal year calculation of the percentage of unduplicated pupils. This subparagraph does not apply to a change that is the result of an audit that has been appealed pursuant to Section 41344.

(2) For purposes of this section, an “unduplicated pupil” is a pupil who is classified as an English learner, eligible for a free or reduced-price meal, or a foster youth. For purposes of this section, the definitions in Section 42238.01 of an English learner, a pupil eligible for a free or reduced-price meal, and foster youth shall apply. A pupil shall be counted only once for purposes of this section if any of the following apply:

(A) The pupil is classified as an English learner and is eligible for a free or reduced-price meal.
(B) The pupil is classified as an English learner and is a foster youth.
(C) The pupil is eligible for a free or reduced-price meal and is classified as a foster youth.
(D) The pupil is classified as an English learner, is eligible for a free or reduced-price meal, and is a foster youth.

(3) (A) Under procedures and timeframes established by the Superintendent, commencing with the 2013–14 fiscal year, a county superintendent of schools annually shall report the enrollment of unduplicated pupils, pupils classified as English learners, pupils eligible for free and reduced-price meals, and foster youth in schools operated by the county superintendent of schools to the Superintendent using the California Longitudinal Pupil Achievement Data System.

(B) The Superintendent shall make the calculations pursuant to this section using the data submitted through the California Longitudinal Pupil Achievement Data System.

(C) The Controller shall include instructions, as appropriate, in the audit guide required by subdivision (a) of Section 14502.1, for determining if the data reported by a county superintendent of schools using the California Longitudinal Pupil Achievement Data System is consistent with pupil data records maintained by the county office of education.

(c) Compute an alternative education grant equal to the sum of the following:

(1) (A) (i) For the 2013–14 fiscal year to the 2022–23 fiscal year, inclusive, a base grant equal to the 2012–13 per pupil undificited statewide average juvenile court school base revenue limit calculated pursuant to Article 3 (commencing with Section 2550) of Chapter 12, as that article read on January 1, 2013, and as adjusted each fiscal year pursuant to subparagraph (B). For purposes of this subparagraph, the 2012–13 statewide average juvenile court school base revenue limit shall be considered final as of the annual apportionment for the 2012–13 fiscal year, as calculated for purposes of the certification required on or before February 20, 2014, pursuant to Sections 41332 and 41339.

(ii) For the 2023–24 fiscal year, a base grant equal to the grade span-adjusted base grant for average daily attendance in grades 9 to 12, inclusive, calculated pursuant to subdivision (d) of Section 42238.02, for the 2022–23 fiscal year, multiplied by 1.33, and then adjusted pursuant to subparagraph (B) for the 2023–24 fiscal year.

(iii) Commencing with the 2024–25 fiscal year, and each fiscal year thereafter, a base grant equal to the amount calculated pursuant to clause (ii) and as adjusted each year pursuant to subparagraph (B).
(B) Commencing with the 2013–14 fiscal year, the per pupil base grant shall be
adjusted by the percentage change in the annual average value of the Implicit Price
Deflator for State and Local Government Purchases of Goods and Services for the
United States, as published by the United States Department of Commerce for the
12-month period ending in the third quarter of the prior fiscal year. This percentage
change shall be determined using the latest data available as of May 10 of the preceding
fiscal year compared with the annual average value of the same deflator for the
12-month period ending in the third quarter of the second preceding fiscal year, using
the latest data available as of May 10 of the preceding fiscal year, as reported by the
Department of Finance.

(2) A supplemental grant equal to 35 percent of the base grant described in
paragraph (1) multiplied by the enrollment percentage calculated in subdivision (b).
The supplemental grant shall be expended in accordance with the regulations adopted
pursuant to Section 42238.07.

(3) (A) A concentration grant equal to 35 percent of the base grant described in
paragraph (1) multiplied by the greater of either of the following:
(i) The enrollment percentage calculated in subdivision (b) less 50 percent.
(ii) Zero.
(B) The concentration grant shall be expended in accordance with the regulations
adopted pursuant to Section 42238.07.

(4) (A) Multiply the sum of paragraphs (1), (2), and (3) by the total number of
units of average daily attendance for pupils attending schools operated by a county
office of education, excluding units of average daily attendance for pupils attending
schools or classes established pursuant to Article 2.5 (commencing with Section 48645)
of Chapter 4 of Part 27 of Division 4 of Title 2, who are enrolled pursuant to any of
the following:
(i) Probation-referred pursuant to Sections 300, 601, 602, and 654 of the Welfare
and Institutions Code.
(ii) On probation or parole and not in attendance in a school.

48915.
(B) Multiply the number of units of average daily attendance for pupils attending
schools or classes established pursuant to Article 2.5 (commencing with Section 48645)
of Chapter 4 of Part 27 of Division 4 of Title 2 by the sum of the base grant calculated
pursuant to paragraph (1), a supplemental grant equal to 35 percent of the base grant
calculated pursuant to paragraph (1), and a concentration grant equal to 17.5 percent
of the base grant calculated pursuant to paragraph (1). Funds provided for the
supplemental and concentration grants pursuant to this calculation shall be expended
in accordance with the regulations adopted pursuant to Section 42238.07.
(C) Add the amounts calculated in subparagraphs (A) and (B).

(5) Notwithstanding any other law, commencing with the 2023–24 fiscal year,
and for purposes of this subdivision, average daily attendance shall be the sum of both
of the following:
(A) The average daily attendance reported by the county superintendent of
schools for the annual reporting period for the current fiscal year, or the prior fiscal
year if the prior year total is greater, or the average of the three most recent prior fiscal
years if the average total is greater than both the current year and the prior year.
(B) If applicable, the average daily attendance reported by a charter school in the county established pursuant to Section 47605.5 for the annual reporting period for the current fiscal year.

(d) Add the amount calculated in subdivision (a) to the amount calculated in subparagraph (C) of paragraph (4) of subdivision (c).

(e) Add all of the following to the amount calculated in subdivision (d):

For purposes of this clause, the total statewide kindergarten enrollment shall be calculated using the California Longitudinal Pupil Achievement Data System Fall 1 kindergarten enrollment minus the transitional kindergarten program enrollment for the 2020–21 fiscal year for each local educational agency.

The Controller shall be allowed access to audit working papers. Adjustments pursuant to paragraph (2) of subdivision (b) shall not be appealable to the Education Audit Appeals Panel pursuant to this section.

(2) Within 60 days of the receipt of the certified audit, and after determining that the audit conforms with the reporting standards contained in the audit guide, the Controller shall do both of the following:

(A) Provide the department a copy of the certified audit.

(B) Notify the Office of Public School Construction of any audit findings pursuant to this section and any amounts or adjustments identified pursuant to clause (iii) and provide the Office of Public School Construction with a copy of the certified audit identifying the amounts to be adjusted if, as a result of the audit conducted in accordance with the requirements of subdivisions (a) and (b), the auditor determines any of the following:

(i) A local educational agency has unspent funds for the project not identified as savings pursuant to Section 17070.63 that shall be returned pursuant to subparagraphs
(C) to (G), inclusive, and (D) of paragraph (1) of subdivision (b), and any accompanying grant agreement signed by a local educational agency.

(ii) A local educational agency is subject to an increase or decrease in funds provided pursuant to subparagraphs (C) to (G), inclusive, and (D) of paragraph (1) of subdivision (b), and any accompanying grant agreement signed by a local educational agency.

(iii) A local educational agency did not expend funds in accordance with the Leroy F. Greene School Facilities Act of 1998 (Chapter 12.5 (commencing with Section 17070.10) of Part 10 of Division 1 of Title 1) and any accompanying grant agreement signed by a local educational agency.

(3) Upon receipt of the certified audit, the Office of Public School Construction shall present any grant adjustments required pursuant to clauses (i) and (ii) of subparagraph (B) of paragraph (2) for a specified project to the State Allocation Board for an adjustment to the project apportionment. Funds identified for purposes of clauses (i) and (ii) of subparagraph (B) of paragraph (2) shall be apportioned from, or returned to, the appropriate funds, as established in the State Treasury pursuant to Section 17070.40 or 17070.41, as applicable. If a school district is required to return unspent funds, the fund source for returned funds shall be the county school facilities fund established pursuant to subdivision (a) of Section 17070.43.

(4) A local educational agency may appeal the audit finding pursuant to the timelines and process established in subdivision (d) of Section 41344. The procedures set out in subdivision (d) of Section 41344.1 do not apply to the audit required by this section.

(5) The Office of Public School Construction shall ensure that the local educational agency has corrected the audit finding by implementing a required penalty payment of funds equal to the amount of funds disallowed in the audit finding pursuant to the process specified in subdivision (d).

(d) (1) If, as the result of the audit, a local educational agency is required to pay funds pursuant to clause (iii) of subparagraph (B) of paragraph (2) of subdivision (c), the Office of Public School Construction shall recover the funds from the local educational agency.

(2) If the local educational agency has submitted an appeal to the Education Audit Appeals Panel pursuant to subdivision (d) of Section 41344, the Office of Public School Construction shall not recover funds until following the determination of the appeal.

(3) A local educational agency may use any local fund source to pay the disallowed amount pursuant to clause (iii) of subparagraph (B) of paragraph (2) of subdivision (c) so long as there is no legal prohibition regarding the use of those funds for this purpose.

(4) A local educational agency may request from the Office of Public School Construction a repayment plan within 90 days of receiving the final audit report, or within 30 days of withdrawing or receiving a final determination regarding an appeal pursuant to subdivision (d) of Section 41344 and subdivision (b) of Section 41344.1, as applicable. The Office of Public School Construction and the Director of Finance, or their designees, jointly shall establish a plan for payment. The payment plan shall be established in accordance with the following:
(A) If the executive officer of the Office of Public School Construction and the Director of Finance, in consultation with the department, concur that repayment of the disallowed amount in the current fiscal year would constitute a severe financial hardship for the local educational agency, they may jointly approve a plan of equal annual payments over a period of up to eight years. The plan may include interest on each year’s outstanding balance at the rate earned on the state’s Pooled Money Investment Account during that year. The executive officer of the Office of Public School Construction and the Director of Finance jointly shall establish this plan. At the time the local educational agency is notified, the Controller also shall be notified of the plan by the executive officer of the Office of Public School Construction. The Controller shall withhold the annual amount established pursuant to the plan from the local educational agency’s principal apportionment or Education Protection Account payments.

(B) Notwithstanding subparagraph (A), if the executive officer of the Office of Public School Construction and the Director of Finance, in consultation with the department, concur that repayment of the disallowed amount over an eight-year period would require the local educational agency to request an emergency apportionment pursuant to Article 2 (commencing with Section 41320) of, and Article 2.5 (commencing with Section 41325) of, Chapter 3, they may approve a plan of equal annual payments over a period of up to 20 years. The plan shall include interest on each year’s outstanding balance at the rate earned on the state’s Pooled Money Investment Account during that year. The Controller shall withhold the annual amount established pursuant to the plan from the local educational agency’s principal apportionment or Education Protection Account payments.

(C) If a payment plan submitted pursuant to this section is not approved by the executive officer of the Office of Public School Construction and the Director of Finance, in consultation with the department, or is not requested by the local educational agency, the executive officer of the Office of Public School Construction shall invoice the local educational agency for the entire disallowed amount. If the local educational agency does not remit payment for the invoice within 120 days of issuance, the executive officer of the Office of Public School Construction shall request that the Controller withhold the entire disallowed amount from the local educational agency’s principal apportionment or Education Protection Account payments.

(D) (i) Funds recovered by the executive officer of the Office of Public School Construction or withheld by the Controller pursuant to this section shall be deposited into the appropriate state school facilities fund, as established in the State Treasury pursuant to Section 17070.40 or 17070.41, as applicable.

(ii) Funds remitted to the Office of Public School Construction by a local educational agency from local fund sources, as authorized by paragraph (3), shall be deposited into the appropriate state school facilities fund, as established in the State Treasury pursuant to Section 17070.40 or 17070.41, as applicable.

(e) As used in this section, “audit or review” and “local educational agency” shall have the same meaning as the terms are defined in paragraphs (1) and (2) of subdivision (e) of Section 41344.

(f) The State Allocation Board shall not waive all or any part of this section, any grant agreement or provisions of a grant agreement signed by a local educational agency that receives any funds pursuant to the Leroy F. Greene School Facilities Act of 1998.
(Chapter 12.5 (commencing with Section 17070.10) of Part 10 of Division 1 of Title 1), or any regulation adopted that implements a provision of this section.

(g) In any appeal filed pursuant to Section 41344 and this section, the Office of Public School Construction, the Department of Finance, and the department may timely move to intervene as a party.

(h) If the Office of Public School Construction chooses not to intervene in an appeal, the administrative law judge conducting the hearing, or the Education Audit Appeals Panel, may request that the Office of Public School Construction issue and file in the appeal an objective interpretation of any applicable law, regulation, or term of the grant agreement within 30 days of the request or such longer period as the administrative law judge or the Education Audit Appeals Panel deems reasonable. The Office of Public School Construction’s filing shall not argue or seek to resolve issues of fact, but may state how a particular law, regulation, or grant agreement term applies to competing factual contentions. The agent of the Office of Public School Construction shall be precluded from acting as a party once a request pursuant to this subdivision is made.

(i) Notwithstanding subdivision (a), this section shall not apply to any school facilities project that was apportioned before July 1, 2017.

SEC. 19. Section 41203.1 of the Education Code is amended to read:

41203.1. (a) For the 1990–91 fiscal year and each fiscal year thereafter, allocations calculated pursuant to Section 41203 shall be distributed in accordance with calculations provided in this section. Notwithstanding Section 41203, and for purposes of this section, school districts, community college districts, and direct elementary and secondary level instructional services provided by the State of California shall be regarded as separate segments of public education, and each of these three segments of public education shall be entitled to receive respective shares of the amount calculated pursuant to Section 41203 as though the calculation made pursuant to subdivision (b) of Section 8 of Article XVI of the California Constitution were to be applied separately to each segment and the base year for purposes of this calculation under paragraph (1) of subdivision (b) of Section 8 of Article XVI of the California Constitution were based on the 1989–90 fiscal year. Calculations made pursuant to this subdivision shall be made so that each segment of public education is entitled to the greater of the amounts calculated for that segment pursuant to paragraph (1) or (2) of subdivision (b) of Section 8 of Article XVI of the California Constitution.

(b) If the single calculation made pursuant to Section 41203 yields a guaranteed amount of funding that is less than the sum of the amounts calculated pursuant to subdivision (a), the amount calculated pursuant to Section 41203 shall be prorated for the three segments of public education.

(c) Notwithstanding any other law, this section does not apply to the 1992–93 to the 2022–23 fiscal years, inclusive.

SEC. 20. Section 41544 of the Education Code is amended to read:

41544. (a) For a basic aid school district that was entitled to reimbursement pursuant to former Section 42247.4, as that section read on January 1, 2001, and that received an apportionment pursuant to subdivision (h) of former Section 42247.4, as that section read on January 1, 2001, because a court order directs pupils to transfer to that school district as part of the court-ordered voluntary pupil transfer program, the Superintendent, from the 2001–02 fiscal year to the 2012–13 fiscal year, inclusive,
shall calculate an apportionment of state funds for that basic aid school district that provides 70 percent of the school district revenue limit calculated pursuant to former Section 42238, as that section read on January 1, 2013, that would have been apportioned to the school district from which the pupils were transferred for the average daily attendance of any pupils credited under that court order who did not attend the basic aid school district before the 1995–96 fiscal year.

(b) (1) For a basic aid school district that was entitled to reimbursement pursuant to former Section 42247.4, as that section read on January 1, 2001, and that received an apportionment pursuant to subdivision (h) of former Section 42247.4, as that section read on January 1, 2001, because a court order directs pupils to transfer to that school district as part of the court-ordered voluntary pupil transfer program, the Superintendent, commencing with the 2013–14 fiscal year, shall calculate an apportionment of state funds for that basic aid school district that provides 70 percent of the school district local control funding formula base grant calculated pursuant to subdivision (d) of Section 42238.02, as implemented by Section 42238.03, for the school district from which the pupils were transferred for the average daily attendance of any pupils credited under that court order who did not attend the basic aid school district before the 1995–96 fiscal year.

(2) Notwithstanding paragraph (1), until the Superintendent determines that the school district from which the pupil or pupils were transferred is funded pursuant to Section 42238.02, the Superintendent shall apportion, for average daily attendance credited pursuant to paragraph (1), the lesser of the amount calculated pursuant to paragraph (1) or 70 percent of the sum of the entitlements for the school district from which the pupil or pupils were transferred for the specified fiscal year as computed pursuant to paragraphs (1) to (4), inclusive, of subdivision (a), and paragraph (3) of subdivision (b), of Section 42238.03, divided by the average daily attendance of that school district for that fiscal year and then multiplied by the ratio of local control funding formula base grant funding computed pursuant to subdivision (d) of Section 42238.02 to the local control funding formula amount for that fiscal year computed pursuant to Section 42238.02.

(3) If the entitlements for the school district from which the pupil or pupils were transferred computed pursuant to paragraphs (1) to (4), inclusive, of subdivision (a), and paragraph (3) of subdivision (b), of Section 42238.03, include funding calculated pursuant to Article 4 (commencing with Section 42280) of Chapter 7 for a fiscal year, paragraph (2) shall not apply and the apportionment of state funds for the average daily attendance credited pursuant to this section for that fiscal year shall be calculated pursuant to paragraph (1).

(c) For purposes of subdivision (b), “basic aid school district” means a school district that does not receive from the state, for any fiscal year in which this section is applied, an apportionment of state funds pursuant to subdivision (o) of Section 42238.02.

SEC. 21. Section 42238.024 is added to the Education Code, to read:

(b) (1) Funds appropriated pursuant to subdivision (a) shall be made available by the Superintendent to eligible local educational agencies for services and supports that directly benefit schoolsites eligible pursuant to paragraph (2), and shall supplement, not supplant, funding provided for purposes of the local control funding formula pursuant to Section 2574, 2575, or 42238.02 that is already designated for these schoolsites.

(2) For schoolsites offering grades no higher than grade 8 with a percentage of pupils eligible for free meals equal to or greater than 90 percent in the prior year, or schoolsites offering any grades 9 to 12, inclusive, with a percentage of pupils eligible for free meals equal to or greater than 85 percent in the prior year, funding shall be allocated on a per-unit basis of the schoolsite’s total prior year enrollment. The per-unit funding amount is based on total statewide eligible enrollment and the amount of funds available, as reported in the California Longitudinal Pupil Achievement Data System Fall 1 Certification in the prior fiscal year as of the close of the amendment window.

(3) An eligible schoolsite shall not receive funding pursuant to paragraph (2) of less than fifty thousand dollars ($50,000).

(c) For purposes of this section, the following definitions apply:

(1) “Schoolsite” means an individual school in an eligible local educational agency.

(2) “Eligible for free meals” means either of the following:

(4) “Prior year enrollment” means enrollment in kindergarten, including transitional kindergarten, and grades 1 to 12, inclusive, as reported in the California Longitudinal Pupil Achievement Data System Fall 1 Certification for the prior fiscal year as of the close of the amendment window.

(d) For purposes of making the computations required by Section 8 of Article XVI of the California Constitution, the appropriations made by subdivision (a) shall be deemed to be “General Fund revenues appropriated for school districts,” as defined in subdivision (c) of Section 41202, for the fiscal year for which the appropriation is made, and included within the “total allocations to school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to Article...
XIII B,” as defined in subdivision (e) of Section 41202, for the fiscal year for which the appropriation is made.

SEC. 22. Section 42238.03 of the Education Code is amended to read:

42238.03. (a) Commencing with the 2013–14 fiscal year and each fiscal year thereafter, the Superintendent shall calculate a base entitlement for the transition to the local control funding formula for each school district and charter school equal to the sum of the amounts computed pursuant to paragraphs (1) to (4), inclusive. The amounts computed pursuant to paragraphs (1) to (4), inclusive, shall be continuously appropriated pursuant to Section 14002.

(1) The current fiscal year base entitlement funding level shall be the sum of all of the following:
   (A) For school districts, revenue limits in the 2012–13 fiscal year as computed pursuant to Article 2 (commencing with Section 42238), as that article read on January 1, 2013, divided by the 2012–13 average daily attendance of the school district computed pursuant to Section 42238.05. That quotient shall be multiplied by the current fiscal year average daily attendance of the school district computed pursuant to Section 42238.05. A school district’s 2012–13 fiscal year revenue limit funding shall exclude amounts computed pursuant to Article 4 (commencing with Section 42280). For purposes of this subparagraph, 2012–13 fiscal year average daily attendance and 2012–13 fiscal year revenue limits shall be considered final as of the annual apportionment for the 2012–13 fiscal year, as calculated for purposes of the certification required on or before February 20, 2014, pursuant to Sections 41332 and 41339.
   (B) (i) For charter schools, general purpose funding in the 2012–13 fiscal year as computed pursuant to Article 2 (commencing with Section 47633) of Chapter 6 of Part 26.8 of Division 4, as that article read on January 1, 2013, and the amount of in-lieu property tax provided to the charter school pursuant to Section 47635, as that section read on June 30, 2013, divided by the 2012–13 average daily attendance of the charter school computed pursuant to Section 42238.05. That quotient shall be multiplied by the current fiscal year average daily attendance of the charter school computed pursuant to Section 42238.05. For purposes of this subparagraph, 2012–13 fiscal year average daily attendance and 2012–13 fiscal year general purpose funding, as computed pursuant to Article 2 (commencing with Section 47633) of Chapter 6 of Part 26.8 of Division 4, as that article read on January 1, 2013, shall be considered final as of the annual apportionment for the 2012–13 fiscal year, as calculated for purposes of the certification required on or before February 20, 2014, pursuant to Sections 41332 and 41339.
   (ii) The amount computed pursuant to clause (i) shall exclude funds received by a charter school pursuant to Section 47634.1, as that section read on January 1, 2013.
   (C) The amount computed pursuant to subparagraph (A) shall exclude funds received pursuant to Section 47633, as that section read on January 1, 2013.
   (D) For school districts, funding for qualifying necessary small high schools and necessary small elementary schools shall be adjusted to reflect the funding levels that correspond to the 2012–13 necessary small high school and necessary small elementary school allowances pursuant to Article 4 (commencing with Section 42280) and former Section 42238.146, as those provisions read on January 1, 2013.

(2) (A) Entitlements from items contained in Section 2.00, as adjusted pursuant to Section 12.42, of the Budget Act of 2012 for Items 6110-104-0001, 6110-105-0001,

For purposes of this subparagraph, 2012–13 fiscal year entitlements shall be considered final as of the annual apportionment for the 2012–13 fiscal year, as calculated for purposes of the certification required on or before February 20, 2014, pursuant to Sections 41332 and 41339.

(B) Commencing with the 2014–15 fiscal year, the entitlements identified in subparagraph (A) shall be adjusted to reflect the exclusion of one-time redevelopment agency liquid asset recovery revenue, pursuant to Section 34179.5 and following, of the Health and Safety Code, before the application of the 8.92-percent reduction applied pursuant to subparagraph (A) of paragraph (1) of subdivision (a) of Section 3 of Chapter 2 of the Statutes of 2012.

(3) The allocations pursuant to Sections 42606 and 47634.1, as those sections read on January 1, 2013, divided by the 2012–13 average daily attendance of the charter school computed pursuant to Section 42238.05. That quotient shall be multiplied by the current fiscal year average daily attendance of the charter school computed pursuant to Section 42238.05.

(4) The amount allocated to a school district or charter school pursuant to paragraph (3) of subdivision (b) for the fiscal years before the current fiscal year divided by the average daily attendance of the school district or charter school for the fiscal years before the current fiscal year computed pursuant to Section 42238.05. That quotient shall be multiplied by the current fiscal year average daily attendance of the school district or charter school computed pursuant to Section 42238.05. For purposes of this paragraph, the amount allocated pursuant to paragraph (3) of subdivision (b) for the fiscal years before the current fiscal year, and the average daily attendance of the school district or charter school for the fiscal years before the current fiscal year, as computed pursuant to Section 42238.05, shall be considered final as of the third recertification of the annual apportionment.

(5) (A) For the 2013–14 and 2014–15 fiscal years only, a school district that, in the 2012–13 fiscal year, from any of the funding sources identified in paragraph (1) or (2), received funds on behalf of, or provided funds to, a regional occupational center or program joint powers agency established in accordance with Article 1 (commencing with Section 6500) of Chapter 5 of Division 7 of Title 1 of the Government Code for purposes of providing instruction to secondary pupils shall not redirect that funding for another purpose unless otherwise authorized in law or pursuant to an agreement
between the regional occupational center or program joint powers agency and the contracting school district.

(B) For the 2013–14 and 2014–15 fiscal years only, if a regional occupational center or program joint powers agency established in accordance with Article 1 (commencing with Section 6500) of Chapter 5 of Division 7 of Title 1 of the Government Code for purposes of providing instruction to pupils enrolled in grades 9 to 12, inclusive, received, in the 2012–13 fiscal year, an apportionment of funds directly from any of the funding sources identified in subparagraph (A) of paragraph (2) of subdivision (a), the Superintendent shall apportion that same amount to the regional occupational center or program joint powers agency.

(6) (A) (i) For the 2013–14 and 2014–15 fiscal years only, a school district that, in the 2012–13 fiscal year, from any of the funding sources identified in paragraph (1) or (2), received funds on behalf of, or provided funds to, a home-to-school transportation joint powers agency established in accordance with Article 1 (commencing with Section 6500) of Chapter 5 of Division 7 of Title 1 of the Government Code for purposes of providing pupil transportation shall not redirect that funding for another purpose unless otherwise authorized in law or pursuant to an agreement between the home-to-school transportation joint powers agency and the contracting school district.

(iii) If a home-to-school transportation joint powers agency, established pursuant to Article 1 (commencing with Section 6500) of Chapter 5 of Division 7 of Title 1 of the Government Code for purposes of providing pupil transportation, received an apportionment directly from the Superintendent from any of the funding sources specified in subparagraph (A) of paragraph (2) of subdivision (a) for the 2012–13 fiscal year, the joint powers agency may identify the member local educational agencies and transfer entitlement to that funding to any of those member local educational agencies by reporting to the Superintendent, on or before September 30, 2015, the reassignment of a specified amount of the joint powers agency’s 2012–13 fiscal year entitlement to the member local educational agency. Commencing with the 2015–16 fiscal year, the Superintendent shall add the reassigned amounts to the amounts calculated pursuant to subparagraph (A) of paragraph (2) of subdivision (a).

(B) In addition to subparagraph (A), of the funds a school district receives for home-to-school transportation programs the school district shall expend, pursuant to former Article 2 (commencing with Section 39820) of Chapter 1 of Part 23.5, former Article 10 (commencing with Section 41850) of Chapter 5, and the Small School District Transportation program, as set forth in former Article 4.5 (commencing with Section 42290), as those articles read on January 1, 2013, no less for those programs than the amount of funds the school district expended for home-to-school transportation in the 2012–13 fiscal year.
(7) For the 2013–14 and 2014–15 fiscal years only, of the funds a school district receives for purposes of regional occupational centers or programs, or adult education, the school district shall expend no less than the amount of funds the school district expended for purposes of regional occupational centers or programs, or adult education, respectively, in the 2012–13 fiscal year. For purposes of this paragraph, a school district may include expenditures made by its county office of education within the school district for purposes of regional occupational centers or programs so long as the total amount of expenditures by the school district and the county office of education equal or exceed the total amount required to be expended for purposes of regional occupational centers or programs pursuant to this paragraph and paragraph (3) of subdivision (k) of Section 2575.

(8) For the 2013–14 and 2014–15 fiscal years only, and for purposes of ensuring the continuity of essential induction and training services for beginning teachers, the Alameda County Superintendent of Schools shall withhold five hundred eighty-one thousand five hundred forty dollars ($581,540) from the local control funding formula apportionments of the Newark Unified School District, and from those withheld funds shall allocate the following amounts to the following entities:

(b) Compute an annual local control funding formula transition adjustment for each school district and charter school as follows:

(1) Subtract the amount computed pursuant to paragraphs (1) to (4), inclusive, of subdivision (a) from the amount computed for each school district or charter school under the local control funding formula entitlements computed pursuant to Section 42238.02. School districts and charter schools with a negative difference shall be deemed to have a zero difference.

(2) Each school district’s and charter school’s total need, as calculated pursuant to paragraph (1), shall be divided by the sum of all school districts’ and charter schools’ total need to determine the school district’s or charter school’s respective proportions of total need.

(3) (A) Each school district’s and charter school’s proportion of total need shall be multiplied by any available appropriations specifically made for purposes of this subdivision, and added to the school district’s or charter school’s funding amounts as calculated pursuant to subdivision (a).

(B) For purposes of subparagraph (A), the proportion of total need that is funded from any available appropriations specifically made for purposes of this subdivision for a fiscal year shall be considered fixed as of the second principal apportionment for that fiscal year. (4)(A) For purposes of this subdivision, funding for a restructured charter school shall be calculated as follows:

(i) Funding for a transferred charter school that meets the requirements of Section 47653 shall be calculated by doing both of the following:

(I) For purposes of paragraphs (1) and (3), using the quotient calculated for the original charter school.

(II) For purposes of paragraph (2), using the same amount of entitlement funding calculated for the charter school before the restructuring.

(ii) For purposes of paragraph (2), using the same amount of entitlement funding calculated for each original charter school before the restructuring.

(2023-2025) This clause shall become inoperative on July 1, 2023, unless its operation is extended by the Legislature.

(iii) Funding for a divided charter school that meets the requirements of Section 47653 shall be calculated by doing the following:

(I) For purposes of paragraphs (1) and (3), using the quotients calculated for the original charter school for both the restructured portions of a divided charter school and the remaining portion of a divided charter school.

(II) For purposes of paragraph (2), dividing the amount between the restructured portions of a divided charter school and the remaining portion of a divided charter school based on each charter school’s share of the combined average daily attendance of the original charter school computed pursuant to Section 42238.05 as of the second principal apportionment in the fiscal year immediately before the first fiscal year of
instruction as a restructured charter school. Data regarding average daily attendance shall be provided by the charter school in a format prescribed by the Superintendent. The total average daily attendance attributable to the restructured and remaining portions of a divided charter school shall not exceed the total average daily attendance of the original charter school for the applicable fiscal year. The amounts shall be final as of the second principal apportionment for the first fiscal year of instruction as a restructured charter school and each fiscal year thereafter.

(B) The definitions in Section 47654 apply for purposes of this paragraph.

(A) The prior year funding amount per unit of average daily attendance for the school district in which the charter school is physically located. The Superintendent shall calculate the funding amount per unit of average daily attendance for this purpose by dividing the total local control funding formula entitlement, calculated pursuant to subdivisions (a) and (b), received by that school district in the prior year by prior year funded average daily attendance of that school district. For purposes of this subparagraph, a charter school that is physically located in more than one school district shall use the calculated local control funding entitlement per unit of average daily attendance of the school district with the highest prior year funding amount per unit of average daily attendance. For purposes of this subparagraph, the prior year funding amount per unit of average daily attendance for the school district in which the charter school is physically located shall be considered final as of the second principal apportionment of the prior fiscal year.

(B) The charter school’s local control funding formula rate computed pursuant to subdivisions (c) to (i), inclusive, of Section 42238.02.

(2) For charter schools funded pursuant to paragraph (1), the charter school shall be eligible to receive growth funding pursuant to subdivision (b) toward meeting the newly operational charter school’s local control funding formula target.

(3) Upon a determination that all school districts and charter schools equal or exceed the local control funding formula target computed pursuant to Section 42238.02, as determined by the calculation of a zero difference pursuant to paragraph (1) of subdivision (b) for all school districts and charter schools, this subdivision shall not apply and the charter school shall receive an allocation equal to the amount calculated under Section 42238.02 in that fiscal year and future fiscal years.

(4) For purposes of this subdivision, the determination of a charter school’s physical location shall be considered final as of the second principal apportionment for the applicable fiscal year.

(g) (1) In each fiscal year the Superintendent shall determine the percentage of school districts that are apportioned funding pursuant to this section that is less than the amount computed pursuant to Section 42238.02 as of the second principal apportionments of the fiscal year. If the percentage is less than 10 percent, the Superintendent shall apportion funding to school districts and charter schools equal to the amount computed pursuant to Section 42238.02 in that fiscal year.
(2) For each fiscal year thereafter, the Superintendent shall apportion funding to a school district and charter school equal to the amount computed pursuant to Section 42238.02.

If the grant recipient is a regional occupational center or program operated by a joint powers authority that does not receive a principal apportionment or apportionments of state funds, or a consortia of local educational agencies, the commission shall notify the Controller of the local educational agency where the candidate taught and the Controller shall deduct the amount owed from the applicable local educational agency’s next principal apportionment or apportionments of state funds.

inclusive, and provide to at least 50 percent of enrolled unduplicated pupils in classroom-based instructional programs in kindergarten and grades 1 to 6, inclusive, access to expanded learning opportunity programs. Funding received pursuant to this section for the 2021–22 and 2022–23 school years shall be expended to develop an expanded learning opportunity program or provide services in accordance with program requirements. Commencing with the 2023–24 school year, as a condition of receipt of funds allocated pursuant to subparagraph (B) of paragraph (1) of subdivision (d), local educational agencies shall offer to all pupils in classroom-based instructional programs in kindergarten and grades 1 to 6, inclusive, access to expanded learning opportunity programs, and shall provide access to any pupil whose parent or guardian requests their placement in a program. Commencing with the 2023–24 school year, as a condition of receipt of funds allocated pursuant to subparagraph (C) of paragraph (1) of subdivision (d), local educational agencies shall offer to at least all unduplicated pupils in classroom-based instructional programs in kindergarten and grades 1 to 6, inclusive, access to expanded learning opportunity programs, and shall provide access to any unduplicated pupil whose parent or guardian requests their placement in a program. Expanded learning opportunity programs shall include all of the following:

(A) On schooldays, as described in Section 46100 and Sections 46110 to 46119, inclusive, and days on which school is taught for the purpose of meeting the 175-instructional-day offering as described in Section 11960 of Title 5 of the California Code of Regulations, in-person before or after school expanded learning opportunities that, when added to daily instructional minutes, recess, and meals, are no less than nine hours of combined instructional time, recess, meals, and expanded learning opportunities per instructional day.

(B) (i) For at least 30 nonschooldays, inclusive of extended school year days provided pursuant to paragraph (3) of subdivision (b) of Section 56345, no less than nine hours of in-person expanded learning opportunities per day.

(ii) Extended school year days may include in-person before or after school expanded learning opportunities that, when added to daily instructional minutes, recess, and meals, are not less than nine hours of combined instructional time, recess, meals, and expanded learning opportunities per instructional day.

(C) For expanded learning opportunity programs located in a frontier designated geographical location, program requirements are no less than eight hours of combined instructional time, recess, meals, and in-person before or after school expanded learning opportunities per instructional day, and no less than eight hours of in-person expanded learning opportunities on at least 30 nonschooldays.

(2) Local educational agencies operating expanded learning opportunity programs pursuant to this section may operate a before school component of a program, an after school component of a program, or both the before and after school components of a program, on one or multiple schoolsites, and shall comply with subdivisions (c), (d), and (g) of Section 8482.3, including the development of a program plan based on all of the following:

(A) The department’s guidance.

(B) Section 8482.6.

(C) Paragraphs (1) to (9), inclusive, and paragraph (12) of subdivision (c) of Section 8483.3.
(D) Section 8483.4, except that programs serving transitional kindergarten or kindergarten pupils shall maintain a pupil-to-staff member ratio of no more than 10 to 1.

(3) Local educational agencies shall prioritize services provided pursuant to this section at schoolsites in the lowest income communities, as determined by prior year percentages of pupils eligible for free and reduced-price meals, while maximizing the number of schools and neighborhoods with expanded learning opportunity programs across their attendance area.

(4) Local educational agencies may serve all pupils, including elementary, middle, and secondary school pupils, in expanded learning opportunity programs provided pursuant to this section.

(5) Local educational agencies may charge pupil fees for expanded learning opportunity programs provided pursuant to this section, consistent with Section 8482.6.

(6) Local educational agencies are encouraged to collaborate with community-based organizations and childcare providers, especially those participating in state or federally subsidized childcare programs, to maximize the number of expanded learning opportunity programs offered across their attendance areas.

(7) This section does not limit parent choice in choosing a care provider or program for their child outside of the required instructional minutes provided during a schoolday. Pupil participation in an expanded learning opportunity program is optional. Children eligible for an expanded learning opportunity program may participate in, and generate reimbursement for, other state or federally subsidized childcare programs, pursuant to the statutes regulating those programs.

(8) Local educational agencies may provide up to three days of staff development during regular expanded learning opportunity program hours.

(9) (A) An expanded learning opportunity program shall not be required to comply with the requirements of Chapter 2 (commencing with Section 8200) of Part 6 of Division 1 of Title 1 or the requirements set forth in Chapter 19 of Division 1 of Title 5 of the California Code of Regulations.

(B) Notwithstanding any other law, an expanded learning opportunity program operating pursuant to this section and serving children in first grade or higher, or any expanded learning opportunity program serving children in any grade operated on a local educational agency’s school campus, may operate without obtaining a child daycare facility license or special permit pursuant to Chapter 3.4 (commencing with Section 1596.70) of, and Chapter 3.5 (commencing with Section 1596.90) of, Division 2 of the Health and Safety Code. An expanded learning opportunity program shall not receive any additional funding pursuant to this subparagraph.

(C) Notwithstanding subparagraph (B), an expanded learning opportunity program operating pursuant to this section and serving children in kindergarten, including transitional kindergarten, in a facility not located on a local educational agency’s school campus, shall comply with the child daycare facility license requirements set forth in Chapter 3.4 (commencing with Section 1596.70) of, and Chapter 3.5 (commencing with Section 1596.90) of, Division 2 of the Health and Safety Code. An expanded learning opportunity program shall not receive any additional funding pursuant to this subparagraph.

(D) Nothing in this section exempts an expanded learning opportunity program operating pursuant to this section from complying with the child daycare facility license
requirements set forth in Chapter 3.4 (commencing with Section 1596.70) of, and Chapter 3.5 (commencing with Section 1596.90) of, Division 2 of the Health and Safety Code when serving children who do not participate in the After School Education and Safety Program (Article 22.5 (commencing with Section 8482) of Chapter 2 of Part 6 of Division 1 of Title 1), 21st Century Community Learning Centers (Article 22.6 (commencing with Section 8484.7) of Chapter 2 of Part 6 of Division 1 of Title 1), or the Expanded Learning Opportunities Program pursuant to this section. If multiple funding sources are used to serve pupils in an expanded learning opportunity program, a conflict in program requirements shall be resolved in favor of the funding source with the stricter requirements.

(c) (1) Commencing with the 2023–24 school year, a local educational agency shall be subject to the audit conducted pursuant to Section 41020 to determine compliance with subdivision (b).

(2) Commencing with the 2023–24 school fiscal year, if a local educational agency either fails to offer or provide access to expanded learning opportunity programs to eligible pupils pursuant to paragraph (1) of subdivision (b), the Superintendent shall withhold from the local educational agency’s apportionment of funds pursuant to subdivision (d) an amount proportionate to the number of pupils to whom the local educational agency failed to offer or provide access to expanded learning opportunity programs. Pupils opting not to participate in the expanded learning opportunity program shall not generate a penalty for a local educational agency pursuant to this paragraph.

(3) (A) Commencing with the 2023–24 school fiscal year, if a school district fails to maintain the required number of days or hours described in subparagraphs (A) to (C), inclusive, of paragraph (1) of subdivision (b), the Superintendent shall withhold from the school district’s apportionment of funds pursuant to subdivision (d) an amount equal to the product of 0.0048 times the school district’s apportionment for each day the school district fails to meet the day or hour requirements.

(B) Commencing with the 2023–24 school fiscal year, if a charter school fails to maintain the required number of days or hours described in subparagraphs (A) to (C), inclusive, of paragraph (1) of subdivision (b), the Superintendent shall withhold from the charter school’s apportionment of funds pursuant to subdivision (d) an amount equal to the product of 0.0049 times the charter school’s apportionment for each day the charter school fails to meet the day or hour requirements.

(d) (1) The Superintendent shall allocate funding appropriated in Item 6100-110-0001 of the annual Budget Act and in subdivision (f), if applicable, in the following manner:

(A) For the 2021–22 fiscal year, for local educational agencies with a prior fiscal year local control funding formula unduplicated pupil percentage calculated pursuant to paragraph (5) of subdivision (b) of Section 42238.02 of equal to or greater than 80 percent, the amount of one thousand one hundred seventy dollars ($1,170) per unit of the local educational agency’s prior fiscal year second period reported kindergarten and grades 1 to 6, inclusive, classroom-based average daily attendance multiplied by the local educational agency’s unduplicated pupil percentage. Prior fiscal year average daily attendance and unduplicated pupil percentage shall be considered final as of the second principal apportionment for that fiscal year.
(B) Commencing with the 2022–23 fiscal year, for local educational agencies with a prior fiscal year local control funding formula unduplicated pupil percentage calculated pursuant to paragraph (5) of subdivision (b) of Section 42238.02 of equal to or greater than 75 percent, the amount of two thousand seven hundred fifty dollars ($2,750) per unit of the local educational agency’s prior fiscal year second period reported kindergarten and grades 1 to 6, inclusive, classroom-based average daily attendance multiplied by the local educational agency’s unduplicated pupil percentage. Prior fiscal year average daily attendance and unduplicated pupil percentage shall be considered final as of the second principal apportionment for that fiscal year.

(C) For all other local educational agencies not receiving an allocation under subparagraph (A) or (B), the amount of funds remaining from the appropriations in Item 6100-110-0001 of the annual Budget Act and subdivision (f), (g), if applicable, after the amount allocated pursuant to subparagraph (A) or (B), shall be allocated on a per-unit basis of the local educational agency’s prior year second period reported kindergarten and grades 1 to 6, inclusive, classroom-based average daily attendance multiplied by the local educational agency’s unduplicated pupil percentage. Prior year average daily attendance and unduplicated pupil percentage shall be considered final as of the second principal apportionment for that fiscal year.

(2) A local educational agency with prior year classroom-based average daily attendance in kindergarten and grades 1 to 6, inclusive, shall not receive funding pursuant to paragraph (1) of less than fifty thousand dollars ($50,000).

(3) Funds provided to a local educational agency pursuant to paragraph (1) shall be used to support pupil access to expanded learning opportunity programs, which may include, but is not limited to, hiring literacy coaches, high-dosage tutors, school counselors, and instructional day teachers and aides to assist pupils as part of the local educational agency’s program enrichment activities.

(4) A local educational agency receiving funding pursuant to subparagraph (B) of paragraph (1) shall be provided at least three years of funding pursuant to that subparagraph upon becoming eligible to receive funding pursuant to that subparagraph. A local educational agency that does not meet the requirements of subparagraph (B) of paragraph (1) for four consecutive years shall be ineligible to receive funding pursuant to that subparagraph.

(5) The Superintendent shall proportionately reduce the amount of funding allocated pursuant to this section for a charter school that has ceased operation during the school year if school was actually taught in the charter school on fewer than 175 calendar days during that school year. The reduction shall be commensurate to the number of days that the charter school failed to operate due to the closure.

(6) For the 2021–22 fiscal year, a school district or charter school may expend or encumber the funds received pursuant to this subdivision from the 2021–22 fiscal year to the 2022–23 fiscal year, inclusive. For the 2022–23 fiscal year, a school district or charter school may expend or encumber the funds received pursuant to this subdivision from the 2022–23 fiscal year to the 2023—24 fiscal year, inclusive.

(7) (A) For reorganized school districts, the prior fiscal year percentage of unduplicated pupils for purposes of paragraph (1) shall be calculated as follows:

(i) For a new or acquiring school district that has reorganized pursuant to paragraph (1), (2), or (3) of subdivision (a), or subdivision (b), of Section 35511, formed
by all of two or more existing districts, combine the unduplicated pupils and total pupil enrollment of the original school districts.

(ii) For a new or acquiring school district that has reorganized pursuant to paragraph (1), (2), or (3) of subdivision (a), or subdivision (b), of Section 35511, formed by parts of one or more existing districts, and for the remaining portion of a divided district, or for a new school district formed as a result of a deunification pursuant to paragraph (4) of subdivision (a) of Section 35511, the county office of education with jurisdiction over the reorganized school district may provide to the department, under timelines and procedures established by the Superintendent, the unduplicated pupils and total pupil enrollment for the prior three fiscal years from each affected school district that will be served by each reorganized district, and the prior fiscal year unduplicated pupil percentage may be based on the unduplicated pupils and total pupil enrollment attributed to each reorganized school district. If the county office of education with jurisdiction over the reorganized school district does not provide to the department the unduplicated pupils and total pupil enrollment for the prior three fiscal years from each affected school district that will be served by each reorganized school district, the unduplicated pupils and total pupil enrollment shall be equal to the counts reported for the original school district.

(B) For reorganized school districts, the prior fiscal year average daily attendance for purposes of paragraph (1) shall be calculated as follows:

(i) For a new or acquiring school district that has reorganized pursuant to paragraph (1), (2), or (3) of subdivision (a), or subdivision (b), of Section 35511, the sum of the average daily attendance of the original school districts.

(ii) For a remaining portion of a divided school district, the average daily attendance attributed to that portion of the school district.

(iii) For a new school district formed as a result of a deunification pursuant to paragraph (4) of subdivision (a) of Section 35511, the average daily attendance of the former school district shall be attributed to the new school districts so that the sum of the average daily attendance for the new school districts equals the average daily attendance of the former school district.

(iv) For purposes of clauses (i), (ii), and (iii), the county superintendent of schools with jurisdiction over the reorganized school district shall provide to the department the prior fiscal year average daily attendance as of the second principal apportionment from each affected school district that will be served by each reorganized district.

(e) Commencing with the 2023–24 school year, the Superintendent shall establish a process and a timeline for local educational agencies operating expanded learning opportunity programs pursuant to this section to submit to the department, for the
purpose of informing the State Department of Social Services, all of the following information related to any third parties that the local educational agency contracts with to provide services to pupils at a location other than a local educational agency’s school campus:

1. The name, address, and telephone number of each third party.
2. The number of pupils being served by each third party, as well as the grade levels of those pupils.
3. The State Department of Social Services child daycare facility license number of each third party if applicable.

(f) For purposes of this section, the following definitions apply:

1. “Expanded learning opportunities” has the same meaning as “expanded learning” is defined in Section 8482.1. “Expanded learning opportunities” does not mean an extension of instructional time, but rather, opportunities to engage pupils in enrichment, play, nutrition, and other developmentally appropriate activities.
2. “Frontier designated geographic location” means a schoolsite in an area that has a population density of less than 11 persons per square mile.
3. “Local educational agency” means a school district or charter school, excluding a charter school established pursuant to Section 47605.5.
4. “Nonschooldays” means days not identified pursuant to subparagraph (A) of paragraph (1) of subdivision (b), inclusive of Saturdays, as described in Section 37223.
5. “Offer access” means to recruit, advertise, publicize, or solicit through culturally and linguistically effective and appropriate communication channels.
6. “Provide access,” with respect to an “expanded learning opportunity program,” means to enroll in the expanded learning opportunity program. If a parent or guardian has a signed expanded learning opportunity program registration form and that form is on file, the pupil shall be considered enrolled in the expanded learning opportunity program. For a local educational agency receiving an expanded learning opportunity program apportionment, transportation shall be provided for any pupil who attends a school that is not operating an expanded learning opportunity program to attend a location that is providing an expanded learning opportunity program and to return to their original location or another location that is established by the local educational agency.
7. “Unduplicated pupil” has the same meaning as in Section 42238.02.

(g) For the 2021–22 fiscal year, the sum of seven hundred fifty-four million twenty-one thousand dollars ($754,021,000) is hereby appropriated from the General Fund to the Superintendent for allocation for the Expanded Learning Opportunities Program in the manner and for the purpose set forth in this section.

(h) For purposes of making the computations required by Section 8 of Article XVI of the California Constitution, the appropriation made by subdivision (f) (g) shall be deemed to be “General Fund revenues appropriated for school districts,” as defined in subdivision (c) of Section 41202, for the 2020–21 fiscal year, and included within the “total allocations to school districts and community college districts from General
Fund proceeds of taxes appropriated pursuant to Article XIII B,” as defined in subdivision (e) of Section 41202, for the 2020–21 fiscal year.

SEC. 33. Section 46392 of the Education Code is amended to read:

46392. (a) If the average daily attendance of a school district, county office of education, or charter school during a fiscal year has been materially decreased during a fiscal year because of any of the following, the fact shall be established to the satisfaction of the Superintendent by affidavits of the members of the governing board or body of the school district, county office of education, or charter school and the county superintendent of schools:

(1) Fire.
(2) Flood.
(3) Impassable roads.
(4) Epidemic.
(5) Earthquake.
(6) The imminence of a major safety hazard as determined by the local law enforcement agency.
(7) A strike involving transportation services to pupils provided by a nonschool entity.
(8) An order provided for in Section 41422.

(b) (1) In the event a state of emergency is declared by the Governor in a county, a decrease in average daily attendance in the county below the approximate total average daily attendance that would have been credited to a school district, county office of education, or charter school had the state of emergency not occurred shall be deemed material. The Superintendent shall determine the length of the period during which average daily attendance has been reduced by the state of emergency.

(2) The period determined by the Superintendent shall not extend into the next fiscal year following the declaration of the state of emergency by the Governor, except upon a showing by a school district, county office of education, or charter school, to the satisfaction of the Superintendent, that extending the period into the next fiscal year is essential to alleviate continued reductions in average daily attendance attributable to the state of emergency.

(3) Notwithstanding any other law, the Superintendent shall extend through the 2018–19 fiscal year the period during which it is essential to alleviate continued reductions in average daily attendance attributable to a state of emergency declared by the Governor in October 2017, for a school district where no less than 5 percent of the residences within the school district or school district facilities were destroyed by the qualifying emergency.

(c) (1) The average daily attendance of the school district, county office of education, or charter school for the fiscal year shall be estimated by the Superintendent in a manner that credits to the school district, county office of education, or charter school for determining the apportionments to be made to the school district, county office of education, or charter school from the State School Fund approximately the total average daily attendance that would have been credited to the school district, county office of education, or charter school had the emergency not occurred or had the order not been issued.

(2) (A) From September 1, 2021, to June 30, 2022, inclusive, with the exception of a material loss of attendance for pupils who are individuals with exceptional needs,
as defined in Section 56026, whose individualized education program developed pursuant to Article 3 (commencing with Section 56340) of Chapter 4 of Part 30 does not specifically provide for participation in independent study or pupils who are enrolled in community day schools pursuant to Article 3 (commencing with Section 48660) of Chapter 4 of Part 27, a school district, county office of education, or charter school shall not receive average daily attendance credit pursuant to this section for pupils that have been quarantined and are unable to attend in-person instruction due to exposure to, or infection with, COVID-19 pursuant to local or state public health guidance.

(B) Notwithstanding subparagraph (A), from September 1, 2021, to June 30, 2022, inclusive, a school district, county office of education, or charter school may receive average daily attendance credit pursuant to this section for school closures related to impacts from COVID-19 or material loss of attendance due to COVID-19 related staffing shortages if the following conditions are established to the satisfaction of the Superintendent by affidavits of the members of the governing board or body of the school district, county office of education, or charter school and the county superintendent of schools:

(i) The school district, county office of education, or charter school is unable to provide in person instruction to pupils due to staffing shortages as a result of staff quarantine due to exposure to, or infection with, COVID-19 pursuant to local or state public health guidance.

(ii) For certificated staff shortages, the school district, county office of education, or charter school has exhausted all options for obtaining staff coverage, including using all certificated staff and substitute teacher options, and has consulted with their county office of education and the Superintendent in determining that staffing needs cannot be met through any option.

(iii) For classified staff shortages, the school district, county office of education, or charter school has exhausted all options for obtaining staff coverage, including using all staff options, and has consulted with their county office of education and the Superintendent in determining that staffing needs cannot be met through any option.

(d) Notwithstanding any other law, for a school district or charter school physically located within a school district, where no less than 5 percent of the residences within the school district, or the school district’s facilities, were destroyed as a result of a state of emergency that was declared by the Governor in November 2018, all of the following shall apply:

(1) (A) In the 2020–21 fiscal year, for school districts, the Superintendent shall calculate the difference between the school district’s certified second principal apportionment local control funding formula entitlement pursuant to Section 42238.02 in the 2020–21 fiscal year and the 2019–20 fiscal year and, if there is a difference, allocate the amount of that difference to the school district.

(B) In the 2021–22 fiscal year, for school districts, the Superintendent shall allocate an amount equal to 25 percent of the difference calculated in subparagraph (A) to the school district.

(C) In the 2022–23 fiscal year, for school districts, the Superintendent shall allocate an amount equal to 12.5 percent of the difference calculated in subparagraph (A) to the school district.

(2) (A) In the 2019–20 and 2020–21 fiscal years, for charter schools, the Superintendent shall calculate the difference between the charter school’s certified
second principal apportionment local control funding formula entitlement pursuant to 42238.02 in the current year and each respective prior year and, if there is a difference, allocate the amount of that difference to the charter school.

(B) In the 2021–22 fiscal year, for charter schools that operate a minimum of 175 school days and report at least 75 percent of the total second period average daily attendance for the 2019–20 fiscal year, as described in Section 41601, the Superintendent shall allocate 25 percent of the difference calculated in subparagraph (A) to the charter school.

(3) For a county office of education funded pursuant to paragraph (1) of subdivision (g) of Section 2575 that has within the boundaries of the county school districts or charter schools affected pursuant to this subdivision and that has in the schools operated by the county office of education at least a 10-percent decrease in average daily attendance in the current fiscal year, in the 2019–20 and 2020–21 fiscal years, the Superintendent shall calculate the difference between the county office of education’s alternative education grant entitlement certified at the annual principal apportionment pursuant to Section 2574 in the current fiscal year and each respective prior fiscal year and, if there is a difference, allocate the amount of that difference to the county office of education.

(4) A school district may transfer funds received pursuant to paragraph (1) to the county office of education for the portion of the funds that represents pupils served by the county office of education who are funded through the school district’s local control funding formula apportionment pursuant to Section 2576.

(5) In each fiscal year, the allocations pursuant to this subdivision shall be made to school districts and charter schools by the Superintendent as soon as practicable after the second principal apportionment and to county offices of education as soon as practicable after the annual principal apportionment. The allocations made shall be final. The Superintendent may provide a preliminary allocation of up to 50 percent no sooner than the first principal apportionment.

(6) (A) The amounts described in this subdivision shall be continuously appropriated from the General Fund to the Superintendent for these purposes.

(B) For purposes of making the computations required by Section 8 of Article XVI of the California Constitution, the appropriation made by this subdivision shall be deemed to be “General Fund revenues appropriated for school districts,” as defined in subdivision (c) of Section 41202, for the fiscal year in which they are appropriated, and included within the “total allocations to school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to Article XIII B,” as defined in subdivision (e) of Section 41202.

(e) Notwithstanding any other law, for a school district or charter school physically located within a school district, where no less than 5 percent of the residences within the school district, or the school district’s facilities, were destroyed as a result of a state of emergency that was declared by the Governor in September 2020, all of the following shall apply:

(1) For the 2021–22 fiscal year, for school districts, the Superintendent shall calculate the difference between the school district’s certified annual principal apportionment local control funding formula revenues pursuant to Section 42238.02 in the 2021–22 fiscal year and the 2019–20 fiscal year, including local revenue, pursuant to subdivision (j) of Section 42238.02, and any additional funds received pursuant to
subdivision (e) of Section 42238.03 in excess of the entitlement calculated pursuant to Section 42238.02 and 42238.03 and, if there is a difference, allocate the amount of that difference to the school district.

(2) For the 2021–22 fiscal year, for charter schools that operate a minimum of 175 school days and report at least 75 percent of the total second period average daily attendance for the 2019–20 fiscal year, as described in Section 41601, the Superintendent shall calculate the difference between the charter school’s certified second principal apportionment local control funding formula revenues pursuant to Section 42238.02 in the 2021–22 fiscal year and the 2019–20 fiscal year, and, if there is a difference, allocate the amount of that difference to the charter school.

(3) School districts and charter schools shall notify the Superintendent of their eligibility pursuant to this subdivision by November 1, 2021, in the manner prescribed by the Superintendent.

(4) Preliminary allocations made pursuant to paragraph (1) shall be made to school districts by the Superintendent through the principal apportionment beginning with the 2021–22 fiscal year first principal apportionment certification and shall be made final as of the annual principal apportionment.

(5) Allocations pursuant to paragraph (2) shall be made to charter schools by the Superintendent as soon as practicable after the second principal apportionment and shall be made final as of the annual principal apportionment. The Superintendent may provide a preliminary allocation of up to 50 percent no sooner than the first principal apportionment.

(f) Notwithstanding any other law, for a school district where a school eligible for funding pursuant to Article 4 (commencing with Section 42280) of Chapter 7 of Part 24 of Division 3 was destroyed as a result of a state of emergency that was declared by the Governor in August 2021, the following shall apply:

(1) The school district may continue to report the amount of attendance generated by pupils enrolled in another school of the school district that would have otherwise attended the destroyed school, and the number of full-time teachers employed by the school district that would have otherwise provided instructional services at the school, as if the school were operational in the 2021–22 and 2022–23 fiscal years.

(2) The school shall be considered a necessary small school for the purpose of Section 42282 in the 2022–23 and 2023–24 fiscal years.

(g) This section applies to any average daily attendance that occurs during any part of a school year.

SEC. 34. Section 46393 of the Education Code is amended to read:

46393. (a) For-(1) The Legislature finds and declares that, given the effects of public health emergencies and the significant and growing number of natural disasters that the state has faced in recent years, there is an increased need for local educational agencies to provide instructional continuity for pupils when conditions make in-person instruction infeasible for all or some pupils, and that maintaining access to instruction during a natural disaster or emergency is crucial in mitigating the negative impacts of lost learning time and supporting pupil mental health.

(2) It is the intent of the Legislature that all local educational agencies have plans in place to keep pupils learning in the event of school closures or absences, especially by being prepared to shift to independent study-based online learning options, if
necessary. While the first priority will always be to get pupils back to in-person instruction as quickly as possible following a natural disaster or other emergency event, schools should have the infrastructure in place to move instruction online and ensure that pupils can access that instruction at short notice. Best practices like including independent study agreements in back-to-school paperwork for parents to sign ahead of time, posting assignments and pupil academic resources online, assigning laptops to all pupils, and maintaining an online instructional platform can help local educational agencies be better prepared to shift to independent study-based online learning options if the need arises.

(b) For affidavits submitted to the Superintendent for events occurring after September 1, 2021, that resulted in a school closure or material decrease in attendance, a school district, county office of education, or charter school that provides an affidavit to the Superintendent, pursuant to Section 41422 or 46392, shall certify that it has a plan for which independent study will be offered to pupils, pursuant to Article 5.5 (commencing with Section 51745) of Chapter 5 of Part 28 of Division 4. The plan shall comply with all of the following:

(1) Independent study is offered to any pupil impacted by any of the conditions listed in Section 46392 within 10 days of the first day of a school closure or material decrease in attendance. Pupils who are individuals with exceptional needs shall receive the services identified in their individualized education programs pursuant to paragraph (9) of subdivision (a) of Section 56345 and may participate in an independent study program.

(2) Require reopening for in-person instruction as soon as possible unless prohibited under the direction of the local or state health officer.

(3) Notwithstanding subdivision (c) of Section 51745 or subparagraph (F) of paragraph (9) of subdivision (g) of Section 51747, include information regarding establishing independent study master agreements in a reasonable amount of time.

(b)

(c) (1) Notwithstanding subdivision (a), the plan is not required to comply with subdivision (d), (e), or (f) of Section 51747 for school closures or a material decrease in attendance for 15 days or less for affected pupils.

(2) Notwithstanding subdivision (a), (b), the plan is not required to comply with subdivision (d), (e), or (f) of Section 51747 if the school district or county office of education has a waiver of the requirement to offer independent study pursuant to subdivision (g) of Section 51745.

(d) A copy of the plan and, if applicable, the state or local public health or public safety order that required school closure shall accompany the affidavit provided to the Superintendent described in subdivision (a).

SEC. 35. Section 47606.5 of the Education Code is amended to read:
47606.5. (a) On or before July 1, 2015, and each year thereafter, the governing body of a charter school shall hold a public hearing to adopt a local control and accountability plan using a template adopted by the state board. The Superintendent shall not require a local control and accountability plan to be submitted by a governing board of a school district or the governing body of a charter school to the state board. The state board may adopt
a template or evaluation rubric that would authorize a school district or a charter school to submit to the state board only the sections of the local control and accountability plan required by federal law.

(j) Notwithstanding any other law, the templates developed by the state board pursuant to this section, as it read on June 30, 2018, shall continue in effect until the state board adopts a new template pursuant to subdivision (b) on or before January 31, 2020, except that the state board may adopt revisions to those templates pursuant to subdivision (g) that are necessary to implement Assembly Bill 1808 of the 2017–18 Regular Session or meet federal requirements.

No later than January 31, 2021, the standards for local indicators for which the department
collects or otherwise has access to relevant and reliable school-level data for all schools statewide shall, to the extent practicable, be based on objective criteria, which may include, but are not necessarily limited to, the extent of any disparities across school sites within a school district or county office of education or performance relative to statewide data.

(f) (1) The department, in collaboration with, and subject to the approval of, the executive director of the state board, shall develop and maintain the California School Dashboard, a web-based system for publicly reporting performance data on the state and local indicators included in the evaluation rubrics.

(e) In awarding funding to eligible applicants pursuant to subdivision (b), the department shall adopt criteria demonstrating an applicant’s ability to provide professional development services. The adopted criteria shall include, but are not limited to, all of the following:
(1) Demonstrated commitment to bilingual and multilingual education and bilingual teacher development.

(2) Demonstrated capability to fully prepare teachers to obtain bilingual authorizations and to improve or update a teacher’s knowledge and skills relating to biliteracy, English language acquisition, English language development, pupil assessment in English and other languages, and instruction in the components of a high-quality bilingual or multilingual education program.

(3) The availability of bilingual education staff with demonstrated experience and knowledge of bilingual and multilingual education for purposes of providing professional development programs.

(g) The department shall meet quarterly with grant recipients to share promising practices and resources, and to resolve issues of implementation.

(h) (1) By January 1, 2022, grant recipients awarded funds appropriated pursuant to Section 85 of Chapter 15 of the Statutes of 2017 shall provide a final report to the department on the number of participants who were issued bilingual authorizations, the number of previously authorized teachers who have participated in the program and subsequently returned to bilingual teaching assignments, and the number of teachers who are still working at least 50 percent of the time in a bilingual setting.

(h) (2) The project performance period for the Bilingual Teacher Professional Development grant funds appropriated pursuant to Section 85 of Chapter 15 of the Statutes of 2017 is January 1, 2018, to June 30, 2021, inclusive.

SEC. 65. Chapter 15.5 (commencing with Section 53008) is added to Part 28 of Division 4 of Title 2 of the Education Code, to read:
CHAPTER 15.5. SCREENING FOR RISK OF READING DIFFICULTIES

53008. (a) (1) The Legislature finds and declares that screening pupils for risk of reading difficulties, including dyslexia, is one of many tools that educators can employ to gain information about how to support their pupils’ learning. Screening should be considered part of a school’s comprehensive instructional strategy, and should be used by educators like other types of formative and summative assessments: to inform individualized instruction, measure a pupil’s progress, identify pupil learning needs, and enable parents and educators to discuss pupil needs in a more informed way.

(2) The Legislature further finds and declares that early identification and intervention with evidence-based early literacy instructional strategies and materials improves literacy outcomes for pupils at risk of, and with, reading difficulties, including dyslexia. Dyslexia is the most common learning disability; however, many pupils on the dyslexia spectrum struggle every day to read without proper identification and support. By screening all pupils for risk of reading difficulties early, California can help families and teachers achieve the best learning and life outcomes for all pupils and close academic achievement gaps.

(b) On or before January 31, 2024, the state board shall appoint an independent panel of experts for the purpose of creating an approved list of evidence-based, culturally, linguistically, and developmentally appropriate screening instruments for pupils in kindergarten and grades 1 and 2 to assess pupils for risk of reading difficulties, including possible neurological disorders such as dyslexia, pursuant to this section. The state board shall establish a review process, including how screening instruments will be evaluated against the criteria specified in subdivision (g), for the panel to use to evaluate and approve screening instruments. This subdivision does not prohibit the state board from periodically reconstituting this expert panel or updating the review process, nor does it prohibit the expert panel from periodically amending the list of screening instruments described in subdivision (c) at the request of the state board.

(c) On or before December 31, 2024, the panel of experts appointed by the state board shall approve a list of screening instruments pursuant to the review process and evaluation criteria established by the state board pursuant to subdivision (b). The list shall include screening instruments that are developed both for English-speaking pupils and for non-English speaking pupils, in languages reflecting the primary languages of pupils in the state, to the extent assessments in those languages are available. The panel of experts shall also identify information about the appropriate administration of each screening instrument, including the appropriate grade or grades for administration of each screening instrument.

(d) On or before June 30, 2025, the governing board or body of a local educational agency serving pupils in kindergarten or grades 1 or 2 shall adopt, at a public meeting, one or more screening instruments from the list adopted pursuant to subdivision (c) to assess pupils for risk of reading difficulties pursuant to this section. The screening instrument or instruments adopted shall provide assessments for both English-speaking pupils and non-English speaking pupils, in languages reflecting the primary languages of pupils in the local educational agency, to the extent assessments in those languages are available.
(e) Commencing no later than the 2025–26 school year, and annually thereafter, a local educational agency serving pupils in kindergarten or grades 1 or 2 shall assess each pupil in kindergarten and grades 1 and 2 for risk of reading difficulties using the screening instrument or instruments adopted by the governing board or body of the local educational agency pursuant to subdivision (d), unless the pupil’s parent or guardian opts out of the screening in writing. In determining when during the school year to administer each screening instrument, a local educational agency shall consider whether pupils have received sufficient instruction in foundational reading skills to support a valid assessment. Nothing in this section restricts local educational agencies from providing additional pupil screenings or diagnostic evaluations, as appropriate.

(f) If a pupil enrolls for the first time in kindergarten or grades 1 or 2 after the screening instrument or instruments have been administered to all pupils in the given grade in that school year pursuant to subdivision (e), the local educational agency shall assess the pupil using the screening instrument or instruments adopted by the governing board or body of the local educational agency pursuant to subdivision (d) within 45 calendar days of enrollment, unless the pupil’s parent or guardian opts out of the screening in writing, or unless the parent or guardian provides documentation or the local educational agency has documentation that the pupil has had a similar screening in their prior school for their current grade and the parent or guardian was made aware of the results.

(g) (1) To support the adoption of high-quality screening instruments that minimize the overidentification or underidentification of pupils’ risk of reading difficulties, and offer meaningful information for followup, the state board shall consider the extent to which a screening instrument addresses the following factors when adopting evaluation criteria pursuant to subdivision (b):

(A) Use of direct measurement, supplemented by other pupil data, to determine if a pupil is at risk of a reading difficulty, including dyslexia.

(B) Measurement of domains that may predict dyslexia and other reading disorders, including, but not limited to, measures of oral language, phonological and phonemic awareness, decoding skills, letter-sound knowledge, knowledge of letter names, rapid automatized naming, visual attention, reading fluency, vocabulary, and language comprehension.

(C) Evidence that the tool is normed and validated using a contemporary multicultural and multilanguage sample of pupils, with outcome data for pupils whose home language is a language other than English as well as those who are native English speakers.

(D) Integration of relevant pupil demographic information, such as home language, English language fluency, and access to prekindergarten education, to more fully understand a pupil’s performance.

(E) Guidance and resources for educators regarding how to administer screening instruments, interpret results, explain results to families, including in pupils’ primary languages, and determine further educational strategies, assessments, diagnostics, and interventions that should be considered and that are specific to each type of pupil result. Guidance and resources provided pursuant to this subparagraph shall be informed by the English Language Arts/English Language Development Framework for California Public Schools developed pursuant to Section 60207 and the California Dyslexia Guidelines developed pursuant to Section 56335, as well as knowledge of effective
interventions for the specific needs of individual pupils, and shall reflect a tiered interventions model aligned with the Multi-Tiered Systems of Support.

(2) Assessments administered pursuant to this section shall not be considered an evaluation or diagnostic tool to establish eligibility for special education and related services pursuant to the federal Individuals with Disabilities Education Act (20 U.S.C. Sec. 1400 et seq.), or an evaluation to determine eligibility for a plan pursuant to Section 504 of the federal Rehabilitation Act of 1973 (29 U.S.C. Sec. 794). However, assessments administered pursuant to this section shall not be used to delay the child find process required under the federal Individuals with Disabilities Education Act. Additionally, assessments administered pursuant to this section may be used by a local educational agency to recommend that a pupil receive further assessment and evaluation to establish eligibility for special education and related services pursuant to the federal Individuals with Disabilities Education Act, or to determine eligibility for a plan pursuant to Section 504 of the federal Rehabilitation Act of 1973.

(h) Pupils who do not speak sufficient English to be screened with an English-language instrument shall be screened pursuant to this section in their primary language if a screening instrument in their primary language approved pursuant to subdivision (c) is available. If a screening instrument is not available in at least one language in which a pupil is proficient, before the pupil can be screened, the pupil’s risk for reading difficulties shall be evaluated through an analysis of the pupil’s developmental history, educational history, and literacy progress, taking into account the pupil’s home background and evolving English language abilities, including speaking, listening, reading, spelling, and writing, consistent with the California Dyslexia Guidelines. Components of screening instruments that do not require English language proficiency may be used in this evaluation. When a pupil acquires sufficient English language knowledge and fluency to be able to be assessed using a screening instrument pursuant to this section, or if a screening instrument in their primary language becomes available, the local educational agency shall assess that pupil using the appropriate screening instrument.

(i) A pupil may be exempted from the requirements of this section with the prior written consent of the parent or guardian if any of the following criteria are satisfied:

1. The pupil has a current identification or diagnosis of a reading difficulty, reading disorder, or other disability.

2. The pupil is eligible for special education and related services pursuant to the federal Individuals with Disabilities Education Act or a plan pursuant to Section 504 of the federal Rehabilitation Act of 1973.

3. The pupil is in the process of being assessed for eligibility for special education and related services pursuant to the federal Individuals with Disabilities Education Act or a plan pursuant to Section 504 of the federal Rehabilitation Act of 1973, and the pupil is being evaluated with diagnostic assessments that make screening pursuant to this section redundant.

(j) A local educational agency shall provide parents or guardians of pupils eligible for screening pursuant to this section with information about the screening, including the date or dates of the screening and instructions for how parents or guardians can opt out of the screening on behalf of their child, no later than 15 calendar days before the administration of the screening instrument or instruments. A local educational agency
is encouraged to provide information about screening pursuant to this section with other back-to-school materials at the beginning of the school year.

(k) Pupil results from assessments administered pursuant to this section shall be made available to the pupil’s parent or guardian in a timely manner, but no more than 45 calendar days from the date the assessment was administered. These results shall include information about how to interpret the results, as well as the next steps pursuant to subdivision (l), if applicable.

(l) Screening results shall be used as a flag for potential risk of reading difficulties, not as a diagnosis of a disability. Results from a screening instrument shall be used as part of a broader process that further evaluates pupil needs and progress, identifies supports for classroom instruction, enables targeted individual intervention as needed, and allows for further diagnosis if concerns do not resolve. Accordingly, if a pupil is identified as being at risk of having reading difficulties after being screened pursuant to this section, the local educational agency shall provide the pupil with supports and services, appropriate to the specific challenges identified by the screening instrument and other pertinent information about the pupil, which may include, among other supports and services, any of the following:

1. Evidence-based literacy instruction focused on the pupil’s specific needs.
2. Progress monitoring.
3. Early intervention in the regular general education program.
4. One-on-one or small group tutoring.
5. Further evaluation or diagnostic assessment.

(m) Results of an assessment administered pursuant to this section shall not be used for any high-stakes purpose, including, but not limited to, teacher or other school staff evaluation, accountability, pupil grade promotion or retention, identification for gifted or talented education, reclassification of English learners, or identification as an individual with exceptional needs.

(n) Notifications to parents or guardians provided pursuant to this section shall comply with the translation requirements set forth in Section 48985.

(o) For purposes of this section, the following definitions apply:

1. “English learner” has the same meaning as defined in subdivision (a) of Section 306.
2. “Kindergarten” shall not include transitional kindergarten, as defined in subdivision (d) of Section 48000.
3. “Local educational agency” means a school district, county office of education, or charter school.
4. “Reading difficulties” means a barrier that impacts a pupil’s ability to learn to read or improve reading abilities, including dyslexia.
5. “Screening instrument” means a brief tool administered by an appropriately trained school employee, including, but not limited to, a certificated teacher of record, measuring discrete areas to determine pupils at risk of reading difficulties, including dyslexia.

SEC. 66. Section 56195.1 of the Education Code is amended to read:

56195.1. The governing board of a district shall elect to do one of the following described in subdivision (a), (b), or (c):

(a) (1) If of sufficient size and scope, under standards adopted by the board, submit to the superintendent a local plan for the education of all individuals with
exceptional needs residing in the district in accordance with Chapter 3 (commencing with Section 56205).

(2) From July 1, 2020, to July 1, 2024, inclusive, the governing board of a district shall not submit a local plan for the education of all individuals with exceptional needs residing in the district under paragraph (1) for the purpose of creating a single district special education local plan area.

(b) In conjunction with one or more districts, submit to the superintendent a local plan for the education of individuals with exceptional needs residing in those districts in accordance with Chapter 3 (commencing with Section 56205). The plan shall include, through joint powers agreements or other contractual agreements, all the following:

1. Provision of a governance structure and any necessary administrative support to implement the plan.

2. Establishment of a system for determining the responsibility of participating agencies for the education of each individual with exceptional needs residing in the special education local plan area.

3. Designation of a responsible local agency or alternative administrative entity to perform functions such as the receipt and distribution of funds, provision of administrative support, and coordination of the implementation of the plan. Any participating agency may perform any of these services required by the plan.

(c) Join with the county office, to submit to the superintendent a local plan in accordance with Chapter 3 (commencing with Section 56205) to assure access to special education and services for all individuals with exceptional needs residing in the geographic area served by the plan. The county office shall coordinate the implementation of the plan, unless otherwise specified in the plan. The plan shall include, through contractual agreements, all of the following:

1. Establishment of a system for determining the responsibility of participating agencies for the education of each individual with exceptional needs residing in the geographical area served by the plan.

2. Designation of the county office, of a responsible local agency, or of any other administrative entity to perform functions such as the receipt and distribution of funds, provision of administrative support, and coordination of the implementation of the plan. Any participating agency may perform any of these services required by the plan.

(d) The service area covered by the local plan developed under subdivision (a), (b), or (c) shall be known as the special education local plan area.

(e) This section does not limit the authority of a county office and a district or group of districts to enter into contractual agreements for services relating to the education of individuals with exceptional needs. Except for instructional personnel service units serving infants, until a special education local plan area adopts a revised local plan approved pursuant to Section 56836.03, the county office or district that reports a unit for funding shall be the agency that employs the personnel who staff the unit, unless the combined unit rate and support service ratio of the nonemploying agency is equal to or lower than that of the employing agency and both agencies agree that the nonemploying agency will report the unit for funding.

(f) A charter school that is deemed a local educational agency for purposes of special education pursuant to Article 4 (commencing with Section 47640) of Chapter 6 of Part 26.8 shall participate in an approved local plan pursuant to subdivision (a),
(b), or (c). A charter school may submit written policies and procedures to the department for approval by the board that establish compliance with the federal Individuals with Disabilities Education Act (20 U.S.C. Sec. 1400 et seq.), and implementing regulations, either individually, pursuant to subdivision (a) or with other charter schools pursuant to subdivision (b). The board shall review these policies and procedures, based on the criteria established pursuant to Section 56100. Upon approval by the board, these written policies and procedures shall become the local plan.

(g) The requirements of this section shall not be waived by the board pursuant to Section 56101 or any other law.

(h) The Superintendent shall post all local plans submitted by each special education local plan area on the internet website of the department.

SEC. 67. Section 56836.148 of the Education Code is amended to read:

56836.148. (a) For the 2020–21 fiscal year, the Superintendent shall determine the base grant funding for each special education local plan area by multiplying the amount funded per unit of average daily attendance for each special education local plan area computed in subdivision (a) of Section 56836.146 by the funded average daily attendance computed in subdivision (a) Section 56836.144 for the corresponding special education local plan area.

(b) For the 2021–22 fiscal year, the Superintendent shall determine the base grant funding for each special education local plan area by multiplying the amount funded per unit of average daily attendance for each special education local plan area computed in subdivision (b) of Section 56836.146 by the funded average daily attendance computed in subdivision (a) of Section 56836.144 for the corresponding special education local plan area.

(c) For the 2022–23 fiscal year, the Superintendent shall determine the base grant funding for each special education local plan area by adding the products of the amount funded per unit of average daily attendance for each special education local plan area computed in subdivision (c) of Section 56836.146 multiplied by the funded average daily attendance for each member local educational agency and charter school that is a local educational agency for purposes of special education computed in subdivision (b) of Section 56836.144.

(d) Commencing with the 2023–24 fiscal year and for each fiscal year thereafter, the Superintendent shall determine the base grant funding for each special education local plan area by adding the products of the amount funded per unit of average daily attendance for each special education local plan area computed in subdivision (d) of Section 56836.146 multiplied by the funded average daily attendance for each member local educational agency and charter school that is a local educational agency for purposes of special education computed in subdivision (b) of Section 56836.144.

(e) For purposes of calculating the base funding for the special education local plan area identified as the Los Angeles County Juvenile Court and Community School/Division of Alternative Education Special Education Local Plan Area, the Superintendent shall make the following computations:

1) For the 2020–21 fiscal year, multiply the amount of funding per unit of average daily attendance computed in paragraph (1) of subdivision (e) of Section 56836.146 by the funded average daily attendance computed in subdivision (a) of Section 56836.144.
(2) For the 2021–22 fiscal year, multiply the amount of funding per unit of average daily attendance computed in paragraph (2) of subdivision (e) of Section 56836.146 by the funded average daily attendance computed in subdivision (a) of Section 56836.144.

(3) For the 2022–23 fiscal year, multiply the amount of funding per unit of average daily attendance computed in paragraph (3) of subdivision (e) of Section 56836.146 by the funded average daily attendance computed in subdivision (b) of Section 56836.144.

(4) Commencing with the 2023–24 fiscal year and for each fiscal year thereafter, multiple the amount of funding per unit of average daily attendance computed in paragraph (4) of subdivision (e) of Section 56836.146 by the funded average daily attendance computed in subdivision (b) of Section 56836.144.

(f) Commencing with the 2022–23 fiscal year and for each fiscal year thereafter, the Superintendent shall make publicly available the amount of special education funding each local educational agency generates for their special education local plan area pursuant to subdivisions (c) and (d).

(g) Commencing with the 2022–23 fiscal year and for each fiscal year thereafter, each special education local plan area shall report to their member local educational agencies no later than 30 days after receiving their apportionment the amount of funding each local educational agency generates pursuant to subdivisions (c) and (d).

(h) For the 2023–24 fiscal year, each special education local plan area shall, at a minimum, allocate special education funding to all of its member local educational agencies equal to the total sum of base grant funding allocated to all of its member local educational agencies in the 2022–23 fiscal year multiplied by the sum of one plus the inflation factor, as defined in paragraph (1) of subdivision (b) of Section 56836.142 for the 2023–24 fiscal year, and then multiplied by the sum of one plus the percent change in funded average daily attendance of its member local educational agencies from the 2022–23 fiscal year to the 2023–24 fiscal year pursuant to Section 56836.144.

SEC. 68. Section 60642.7 of the Education Code is amended to read:

60642.7. (a) The interim assessments offered by the department to local educational agencies, including those offered pursuant to Section 60642.6, are intended for the purposes of improving teaching and pupil learning. Results of the assessments may be used to provide timely feedback to teachers that they may use to continually adjust instruction to improve learning, for communication with pupils’ parents or guardians, and for use by teachers in identifying professional development goals.

(b) Results from the interim assessments offered by the department, including those offered pursuant to Section 60642.6, shall not be used for any high-stakes purpose, including, but not limited to, teacher or other school staff evaluation, accountability, pupil grade promotion or retention, graduation, course or class placement, identification for gifted or talented education, reclassification of English learners, or identification as an individual with exceptional needs.

SEC. 69. Section 60900 of the Education Code is amended to read:

60900. (a) The department shall contract for the development of proposals that will provide for the retention and analysis of longitudinal pupil achievement data on the tests administered pursuant to Chapter 5 (commencing with Section 60600) and
Chapter 7 (commencing with Section 60810). The longitudinal data shall be known as the California Longitudinal Pupil Achievement Data System.

(b) The proposals developed pursuant to subdivision (a) shall evaluate and determine whether it would be most effective, from both a fiscal and a technological perspective, for the state to own the system. The proposals shall additionally evaluate and determine the most effective means of housing the system.

(c) The California Longitudinal Pupil Achievement Data System shall be developed and implemented in accordance with all state rules and regulations governing information technology projects.

(d) The system or systems developed pursuant to this section shall be used to accomplish all of the following goals:

(1) To provide school districts and the department access to data necessary to comply with federal reporting requirements delineated in the federal No Child Left Behind Act of 2001 (20 U.S.C. Sec. 6301 et seq.).

(2) To provide a better means of evaluating educational progress and investments over time.

(3) To provide local educational agencies with the data needed to improve pupil achievement, including college and career readiness.

(4) To provide an efficient, flexible, and secure means of maintaining longitudinal statewide pupil level data between and among the state’s educational segments and operational tools, as defined in Section 10861, including, but not limited to, all of the following:

(A) Pupil level data from all grade levels, inclusive of transitional kindergarten programs, as described in Section 48000, that shall be collected separately from kindergarten pupil data, in elementary and secondary schools, including, but not limited to, juvenile court schools, alternative schools, continuation schools, special education schools, and adult educational programs offering a high school diploma or equivalency.

(B) Pupil level data collected in both detention and nondetention settings.

(C) Pupil level data to postsecondary educational institutions and the Student Aid Commission.

(5) To facilitate the ability of the state to publicly report data, as specified in Section 6401(e)(2)(D) of the federal America COMPETES Act (20 U.S.C. Sec. 9871) and as required by the federal American Recovery and Reinvestment Act of 2009 (Public Law 111-5).

(6) To ensure that any data access provided to researchers, as required pursuant to the federal Race to the Top regulations and guidelines is provided, only to the extent that the data access is in compliance with the federal Family Educational Rights and Privacy Act of 1974 (20 U.S.C. Sec. 1232g).

(e) In order to comply with federal law as delineated in the federal No Child Left Behind Act of 2001 (20 U.S.C. Sec. 6301 et seq.), the local educational agency shall retain individual pupil records for each test taker, including all of the following:

(1) All demographic data collected from the California Assessment of Student Performance and Progress (CAASPP) and English language development tests.

(2) Pupil achievement data from assessments administered pursuant to the CAASPP and English language development testing programs. To the extent feasible, data should include subscore data within each content area.
(3) A unique pupil identification number, to be identical to the pupil identifier developed pursuant to the California School Information Services, that shall be retained by each local educational agency and used to ensure the accuracy of information on the header sheets of the CAASPP tests and the English language development test.

(4) All data necessary to compile reports required by the federal No Child Left Behind Act of 2001 (20 U.S.C. Sec. 6301 et seq.), including, but not limited to, dropout and graduation rates.

(5) Other data elements deemed necessary by the Superintendent, with the approval of the state board, to comply with the federal reporting requirements delineated in the federal No Child Left Behind Act of 2001 (20 U.S.C. Sec. 6301 et seq.), and the federal American Recovery and Reinvestment Act of 2009 (Public Law 111-5), after review and comment by the advisory board convened pursuant to subdivision (h). Before the implementation of this paragraph with respect to adding data elements to the California Longitudinal Pupil Achievement Data System for the purpose of complying with the federal American Recovery and Reinvestment Act of 2009 (Public Law 111-5), the department and the appropriate postsecondary educational agencies shall submit an expenditure plan to the Department of Finance detailing any administrative costs to the department and costs to any local educational agency, if applicable. The Department of Finance shall provide to the Joint Legislative Budget Committee a copy of the expenditure plan within 10 days of receipt of the expenditure plan from the department.

(6) To enable the department, the University of California, the California State University, and the Chancellor of the California Community Colleges to meet the requirements prescribed by the federal American Recovery and Reinvestment Act of 2009 (Public Law 111-5), these entities shall be authorized to obtain quarterly wage data, commencing July 1, 2010, on students who have attended their respective systems, to assess the impact of education on the employment and earnings of those students, to conduct the annual analysis of district-level and individual district or postsecondary education system performance in achieving priority educational outcomes, and to submit the required reports to the Legislature and the Governor. The information shall be provided to the extent permitted by federal statutes and regulations.

(f) To accomplish the goals and requirements set forth in subdivisions (d) and (e), local educational agencies shall submit data according to the processes and timelines established by the department.

(g) The California Longitudinal Pupil Achievement Data System shall have all of the following characteristics:

1. The ability to sort by demographic element collected from the CAASPP tests and English language development test.
2. The capability to be expanded to include pupil achievement data from multiple years.
3. The capability to monitor pupil achievement on the CAASPP tests and English language development test from year to year and school to school.
4. The capacity to provide data to the state and local educational agencies upon their request.
5. The capability to provide data to support operational tools, as defined in Section 10861.
(g) Data elements and codes included in the system shall comply with Sections 49061 to 49079, inclusive, and Sections 49602 and 56347, with Sections 430 to 438, inclusive, of Title 5 of the California Code of Regulations, with the Information Practices Act of 1977 (Chapter 1 (commencing with Section 1798) of Title 1.8 of Part 4 of Division 3 of the Civil Code), and with the federal Family Educational Rights and Privacy Act of 1974 (20 U.S.C. Sec. 1232g), Section 1232h of Title 20 of the United States Code, and related federal regulations.

(i) The department shall convene an advisory board consisting of representatives or designees from the state board, the Department of Finance, the State Privacy Ombudsman, the Legislative Analyst’s Office, representatives of parent groups, school districts, and local educational agencies, and education researchers to establish privacy and access protocols, provide general guidance, and make recommendations relative to data elements. The department is encouraged to seek representation broadly reflective of the general public of California.

(j) This section shall be implemented using federal funds received pursuant to the federal No Child Left Behind Act of 2001 (20 U.S.C. Sec. 6301 et seq.), which are appropriated for purposes of this section in Item 6110-113-0890 of Section 2.00 of the Budget Act of 2002 (Chapter 379 of the Statutes of 2002). The release of these funds is contingent on approval of an expenditure plan by the Department of Finance.

(k) For purposes of this chapter, a local educational agency shall include a county office of education, a school district, and a charter school.

SEC. 70. Section 60900.5 of the Education Code is amended to read:

LEGISLATIVE COUNSEL’S DIGEST

Bill No. 
as introduced, _____.

General Subject: Education finance: education omnibus budget trailer bill.

(1) Existing law establishes a public school financing system that requires state funding for school districts, county offices of education, and charter schools to be calculated pursuant to a local control funding formula, as specified. Existing law requires the Superintendent of Public Instruction to annually calculate a county local control funding formula for each county superintendent of schools that includes, among other things, an alternative education grant, as specified. Existing law includes, among other things, a base grant based upon average daily attendance as a component of that alternative education grant.

This bill would revise the alternative education grant by, among other things, increasing the base grant component of the alternative education grant, revising the calculation of average daily attendance for purposes of the alternative education grant, as specified, and establishing add-ons of $300,000 for each county office of education that operates a juvenile court school and $300,000 for each county office of education that operates a county community school. The bill would require the Superintendent to allocate $5,000 per unit of average daily attendance for a Student Support and Enrichment Block Grant, as provided. The bill would make these provisions applicable commencing with the 2023–24 fiscal year.

(2) Existing law, commencing with the 2018–19 fiscal year, requires the Superintendent to add $200,000 and other specified amounts, that are dependent upon the number and size of school districts under its jurisdiction and that are determined to be in need of differentiated assistance, to a county superintendent of school’s local control funding formula allocation, as specified.

This bill, commencing with the 2023–24 fiscal year, would increase the above-described add-on by $100,000.

(3) Existing law, commencing with the 2015–16 fiscal year, requires the Superintendent to add $2,000,000 to the Los Angeles County Office of Education’s local control funding formula allocation for the purpose of supporting statewide professional development and leadership training for education professionals related to antibias education and the creation of inclusive and equitable schools.

This bill would, commencing with the 2023–24 fiscal year, increase that add-on for the Los Angeles County Office of Education by $1,000,000 to instead be $3,000,000.

(4) The Early Education Act requires the Superintendent to administer the California state preschool program. The act requires each state preschool program applicant or contracting agency to give priority for part-day and full-day programs according to a specified priority ranking, including, after all otherwise eligible children have been enrolled, priority to 3- or 4-year-old children whose families reside within the attendance boundary of an elementary school, as provided. Existing law authorizes a provider operating a state preschool program within the attendance boundary of a
public school, where at least 80% of enrolled pupils are eligible for free or reduced price meals to enroll 3- and 4-year-old children, as provided.

This bill would expand the enrollment described above for part-day and full-day programs to include 3- and 4-year-old children whose parent or guardian is employed within the attendance boundary of the elementary school, as provided.

This bill would require the State Department of Education, no later than December 31, 2023, to issue guidance through management bulletins or similar letters of instruction on how a specified tool for strengthening teacher-child interactions and supporting quality improvement is required to be implemented for the California state preschool program, as provided. The bill would require the department to initiate a rulemaking action to adopt regulations for this purpose on or before December 31, 2024.

The act also requires the Superintendent, in consultation with the Director of Social Services and the executive director of the State Board of Education, to convene a statewide interest holder workgroup. The act requires the Superintendent, in consultation with the director, to provide a report to the appropriate fiscal and policy committees of the Legislature and the Department of Finance with the recommendations of the workgroup no later than January 15, 2023.

This bill would delay the reporting of those recommendations described above to instead be no later than March 31, 2024.

(5) Existing law establishes the California Prekindergarten Planning and Implementation Grant Program as a state early learning initiative with the goal of expanding access to classroom-based prekindergarten programs. Existing law appropriates $300,000,000 from the General Fund to the State Department of Education in both the 2021–22 fiscal year and the 2022–23 fiscal year for allocation to local educational agencies as base grants, enrollment grants, and supplemental grants, as specified.

The bill would authorize the department to allocate unexpended funds returned by or collected from a grant recipient for grants to local educational agencies for costs associated with the educational expenses of current and future California state preschool program, transitional kindergarten, and kindergarten professionals that support their attainment of required credentials, permits, or professional development in early childhood instruction or child development, including developing competencies in serving inclusive classrooms and dual language learners, as provided. By authorizing the use of appropriated funds for new purposes, the bill would make an appropriation.

(6) Existing law establishes the After School Education and Safety Program under which participating public schools receive grants to operate before and after school programs serving pupils in kindergarten or any of grades 1 to 9, inclusive. Existing law authorizes specified entities to apply for grants under the After School Education and Safety Program, including local educational agencies and cities, counties, and nonprofit organizations in partnership with, and with the approval of, a local educational agency.

This bill would require a local educational agency that contracts with a third party to operate before and after school programs to require the third party to (A) notify the local educational agency of any health- or safety-related issues, as specified, and (B) to request from parents or guardians pupil health information, as provided. The bill would require the local educational agency to provide a telephone hotline and
internet website link for individuals to report complaints or concerns about the before
or after school program.

(7) Existing law, the California School Finance Authority Act, authorizes a
participating party, as defined, in connection with securing financing or refinancing
of projects, or working capital, as defined, to elect to guarantee or provide for payment
of the bonds and related obligations in accordance with specified conditions. Existing
law requires participating parties to, among other things, elect to participate by an
action of its governing board and provide written notice to the Controller. Existing law
authorizes school districts and county offices of education with qualified or negative
financial certifications, as provided, to intercept payments only for short-term financings,
but provided.

This bill would revise and recast those provisions by, among other things,
authorizing participating parties to elect to participate in a local intercept by sending
the county treasurer, or other appropriate county fiscal officer, a request for the
county to participate. If the county agrees to participate, the bill would require the
county treasurer or other county fiscal officer to make an apportionment or revenue
transfer, as provided. This bill would limit the authorization of school districts and
county offices of education with qualified or negative financial certifications to intercept
payments for indebtedness for which the repayment is determined to be probable, as
provided.

(8) Existing law establishes the California Preschool, Transitional Kindergarten,
and Full-Day Kindergarten Facilities Grant Program under the administration of the
State Allocation Board, to provide one-time grants to school districts to, among other
things, construct new school facilities or retrofit existing school facilities for the purpose
of providing transitional kindergarten classrooms and full-day kindergarten classrooms,
as provided. Existing law appropriates, during specific fiscal years, specified sums of
money to the board to provide the grants.

This bill would extend the time that the above described appropriated funds are
available for encumbrance or expenditure by the board until specified dates during
specified fiscal years, thereby making an appropriation.

(9) Existing law requires a school district to use its uniform complaint process
to help identify and resolve any deficiencies related to instructional materials, emergency
or urgent facilities conditions that pose a threat to the health and safety of pupils or
staff, and teacher vacancy or misassignment, as provided. Under existing law, the
procedure required under the uniform complaint process is intended to address, among
other things, a complaint related to teacher misassignment that claims that a teacher
who lacks credentials or training to teach English learners is assigned to teach a class
with more than 20% of English learner pupils in the class.

This bill would establish that the procedure required under the uniform complaint
process is instead intended to address a complaint related to teacher misassignment
that claims that a teacher who lacks credentials or training to teach English learners is
assigned to teach a class with one or more English learner pupils in the class. To the
extent this imposes new obligations on school districts, the bill would impose a
state-mandated local program.

(10) Existing law requires the Controller to create an audit guide that includes,
among other things, instructions for procedures for determining, among other things,
if there any unspent funds associated with the completion of a Charter School Facilities
Program project, a Career Technical Education Facilities Program project, or a project where the local educational agency received hardship funding, as provided.

This bill would delete the requirements that the Controller’s audit guide include instructions for procedures for determining if there are any unspent funds associated with the completion of a Charter School Facilities Program project, a Career Technical Education Facilities Program project, and a project where the local educational agency received hardship funding, as provided.

(11) For the 1990–91 fiscal year and each fiscal year thereafter, existing law requires that moneys to be applied by the state for the support of school districts, community college districts, and direct elementary and secondary level instructional services provided by the state be distributed in accordance with certain calculations governing the proration of those moneys among the 3 segments of public education. Existing law makes that provision inapplicable to the 1992–93 to 2022–23 fiscal years, inclusive.

This bill would also make that provision inapplicable to the 2023–24 fiscal year.

(12) Existing law requires funding pursuant to the local control funding formula to include, in addition to a base grant, supplemental and concentration grant add-ons that are based on the percentage of unduplicated pupils, as specified, served by the county superintendent of schools, school district, or charter school. For purposes of the local control funding formula, existing law defines unduplicated pupil to mean a pupil who is classified as an English learner, eligible for a free or reduced-price meal, or a foster youth, as specified.

This bill would, commencing with the 2023–24 fiscal year, annually appropriate $300,000,000 from the General Fund to the Superintendent for allocation for the Local Control Funding Formula Equity Multiplier apportionment, which the bill would establish, as provided. The bill would, among other things, provide this funding, at not less than $50,000 per eligible schoolsite, to schoolsites serving grades not higher than grade 8, with a percentage of pupils eligible for free meals, as defined, equal to or greater than 90% in the prior year, and to schoolsites offering any of grades 9 to 12, inclusive, with a percentage of pupils eligible for free meals, as defined, equal to or greater than 85% in the prior year, and would require the funding to be allocated on a per-unit basis of the schoolsite’s total prior year enrollment, as specified.

(13) Existing law includes average daily attendance as a component of the calculation under the local control funding formula. For each school district that operates a school where one or more state-operated migrant housing projects are located within the attendance area of the school, and at least $ of the maximum number of pupils enrolled in the school in the relevant fiscal year are migratory children, existing law requires the school district’s fiscal year average daily attendance to be increased, as specified.

This bill would repeal the latter provision.

(14) Existing law continuously appropriates from the General Fund to Section A of the State School Fund for allocation by the Controller any amount necessary to meet the requirements of specified programs, including the local control funding formula, during each fiscal year upon certification by the Superintendent of those amounts. Existing law requires the Controller to provide in each warrant a portion of the total amount certified by the Superintendent as apportioned for specified programs,
including the local control funding formula, during the fiscal year from the State School Fund to the school districts and charter schools under the jurisdiction of the county superintendent of schools of that county, to the county school service fund of that county, and to the county school tuition fund of that county.

This bill would, for the 2023–24 fiscal year, require that $9,579,000 and $256,069,000, respectively, of the amount of apportionments made pursuant to those provisions be funded from specified Items from the Budget Act of 2023.

(15) Existing law requires the Commission on Teacher Credentialing, among other duties, to establish standards for the issuance and renewal of credentials, certificates, and permits. Existing law requires the commission to administer the State Assignment Accountability System to provide local educational agencies with a data system for assignment monitoring. Existing law requires the commission and the State Department of Education to enter into a data sharing agreement to provide the commission with employee assignment data necessary to annually identify misassignments and vacant positions at local educational agencies. Existing law authorizes the commission to promulgate regulations that define standards for a local educational agency, including a charter school, that consistently misassigns employees and what sanctions, if any, to impose on that local educational agency. Existing law requires the Superintendent to identify a list of schools for which the county superintendent, or a designee, shall inspect annually and submit an annual report that describes the state of schools in the county, as provided. As part of the development of that list, existing law requires the Superintendent to identify a list of schools where 15% or more of the teachers are holders of a permit, certificate, or any other authorization that is a lesser certification than a preliminary or clear California teaching credential.

This bill would revise and recast those provisions by, among other things, requiring the department to provide the commission with educator assignment data necessary to annually identify educator assignments, including assignments filled by individuals on preliminary or clear credentials, intern credentials, permits or waivers, misassignments, and vacant positions at local educational agencies. The bill would also require the commission to ensure local educational agencies have access to the results of the accountability system’s process of assignment monitoring, publish annual certificated educator assignment data that reflects the level of preparation and licensure of educators serving California pupils, and support the department in providing annual updates that provide comprehensive information on teaching assignment outcomes inclusive of all educator classifications at the schoolsite, school district, and county level. The bill would expand the commission’s above-described authority to promulgate regulations to apply to local educational agencies that consistently misassign educators, instead of employees, as provided. The bill would require the Superintendent to use data gathered from the department’s teacher assignment monitoring outcome reporting to identify the list of schools where 15% or more of the teachers are holders of a permit, certificate, or any other authorization that is a lesser certification than a preliminary or clear California teaching credential. To the extent that this bill would create new duties for county superintendents of schools and local educational agencies, it would constitute a state-mandated local program.

This bill would require the commission, on or before September 30, 2023, to examine and determine how it can ensure that transcripts will be reviewed for all
candidates requiring determinations of basic skills or subject matter competence in order to complete their credentialing requirements, and, by November 15, 2023, provide recommendations on ways in which efficient transcript review can be provided to all candidates who require determinations to the relevant policy committees and budget subcommittees of the Legislature, the executive director of the State Board of Education or the director’s designee, and the Director of Finance.

(16) Existing law establishes the Teacher Credentials Fund, requires all fees levied and collected by the commission to be deposited in the fund, and prohibits those fees from being transferred to any other fund. Existing law also establishes the Test Development and Administration Account in the Teacher Credentials Fund, and requires all fees collected by the commission for tests, examinations, or assessments to be deposited in the account. Existing law requires the Department of Finance to recommend a reduction in credential or other fees if, at the beginning of any fiscal year, the commission has surplus funds, as provided.

This bill would, commencing July 1, 2023, require all fees collected by the commission for tests, examinations, or assessments to instead be deposited in the Teacher Credentials Fund and would exempt these fees from the above-described requirements related to fee reductions when the commission has surplus funds, as provided. The bill would require these funds to be expended for the development, agency support, maintenance, or administration of tests or other assessments established, required, or administered by the commission, unless otherwise authorized by the Legislature. The bill would require the Department of Finance to annually recommend to the Legislature, as part of the budget review process, an appropriate credential fee sufficient to generate revenues necessary to support the operating budget of the commission plus a prudent reserve, as provided.

(17) Existing law establishes that a preliminary teaching credential shall be valid for 5 years, pending completion of the clear credential program.

Existing law requires the commission to grant or deny a completed application for a credential within 7 days of the date that the commission received the application if the applicant supplies the commission with evidence that the applicant is married to, or in a domestic partnership or other legal union with, an active duty member of the Armed Forces of the United States who is assigned to a duty station in this state under official active duty military orders and holds a valid teaching credential in another state, district, or territory of the United States.

This bill would require the commission to issue a comparable credential to an individual who is an active duty member of the Armed Forces of the United States or an individual who is married to, or in a domestic partnership or other legal union with, an active duty member of the Armed Forces of the United States who has been relocated to this state under official active duty military orders and who, among other things, possesses and provides proof of a valid, out-of-state, unexpired, professional-level credential, as defined. The bill would limit a comparable credential issued under these provisions to be valid only for the duration of those military orders.

Existing law requires, as a minimum requirement for a preliminary multiple subject, single subject, or education specialist teaching credential, the satisfactory completion of a program of professional preparation that includes a teaching performance assessment that meets specified requirements and has been approved by the commission, as provided.
This bill would require the commission to exempt specified preliminary multiple subject credential candidates and preliminary single subject credential candidates from the requirement, and any accompanying regulations, to complete a teaching performance assessment, as provided.

(18) Existing law establishes the Teacher Residency Grant Program and appropriates funds from the General Fund to the commission to make one-time grants to develop new, or expand, strengthen, or improve access to existing, teacher and school counselor residency programs. Existing law requires grants provided for this purpose to be up to $25,000 per residency candidate. Existing law requires a residency candidate to agree to serve in a school within the jurisdiction of the grant recipient that sponsored the candidate for at least 4 school years, as provided. Existing law requires the commission to conduct evaluations of the grants and to provide a report to the Department of Finance and the appropriate fiscal and policy committees of the Legislature on or before December 1, 2027.

This bill would require a residency candidate to instead agree to serve in any public school in California for at least 4 school years. The bill would increase the amount of the grants to instead be up to $40,000 per residency candidate. The bill would require grant recipients receiving an award during and after the 2023–24 fiscal year to provide residency candidates with a minimum compensation package of no less than $20,000. The bill would also extend by 2 years the deadline by which the commission is required to provide the above-described report to December 1, 2029.

(19) Existing law establishes the Expanded Learning Opportunities Program. Existing law authorizes a local educational agency that elects to operate an expanded learning opportunity program to operate a before school component of a program, an after school component of a program, or both, and requires the local educational agency to comply with specified requirements, including the development of a program plan, as specified.

This bill would, among other things, specify licensing requirements for purposes of the program depending on the grades served and location of the facility, as provided, and would require the Superintendent to establish a process and a timeline for local educational agencies operating expanded learning opportunity programs pursuant to these provisions to submit to the State Department of Education, for the purpose of informing the State Department of Social Services, of specified information related to any third parties that the local educational agency contracts with to provide services to pupils at a location other than a local educational agency’s school campus.

Existing law requires the Superintendent to allocate funding for the program, as specified, and authorizes a charter school or school district, for the 2021–22 fiscal year, to expend the funds from the Superintendent from the 2021–22 and 2022–23 fiscal years, and, for the 2022–23 fiscal year, authorizes those local educational agencies to expend the funds received from the Superintendent from the 2022–23 and 2023–24 fiscal years.

The bill would authorize charter schools and school districts, for the 2021–22 fiscal year, to instead expend or encumber the funds from the Superintendent from the 2021–22 fiscal year to the 2023–24 fiscal year, inclusive, and, for the 2023–24 fiscal year, would authorize those local educational agencies to instead expend or encumber the funds received from the Superintendent from the 2022–23 and 2023–24 fiscal years.
For purposes of state apportionments, if the average daily attendance of a school district, county office of education, or charter school during a fiscal year has been materially decreased during a fiscal year because of an emergency, existing law requires the Superintendent to estimate the average daily attendance in a manner that credits to the school district, county office of education, or charter school the total average daily attendance that would have been credited had the emergency not occurred. Existing law requires the Superintendent to make specified calculations for purposes of state apportionments to a school district, county office of education, or charter school affected by the state of emergency declared by the Governor in November 2018, as provided. For the 2020–21 fiscal year for school districts, existing law requires the Superintendent to calculate the difference between the school district’s certified second principal apportionment local control funding formula entitlement in the 2020–21 fiscal year and the 2019–20 fiscal year and, if there is a difference, to allocate the amount of that difference to the school district, and for the 2021–22 fiscal year, requires the Superintendent to allocate an amount equal to 25% of the difference calculated by the Superintendent for the 2020–21 fiscal year. Existing law continuously appropriates the amounts necessary to provide those apportionments.

This bill would require the Superintendent, for the 2022–23 fiscal year for school districts, to allocate an amount equal to 12.5% of the difference calculated by the Superintendent for the 2020–21 fiscal year, thereby making an appropriation.

Existing law provides for the funding of necessary small schools and high schools, as specified. Existing law requires, among other things, that funding to include various specified amounts per pupil and teacher for different tiers of numbers of pupils and teachers. Existing law extends certain necessary small school funding provisions to school districts where a school eligible for necessary small school funding was destroyed as a result of a state of emergency that was declared by the Governor in August 2021 by authorizing school districts to continue to report the amount of attendance generated by pupils enrolled in another school of the school district that would have otherwise attended the destroyed school, and the number of full-time teachers employed by the school district that would have otherwise provided instructional services at the school, as if the school were operational in the 2021–22 and 2022–23 fiscal years. Existing law requires those schools to be considered a necessary small school for these purposes for the 2022–23 fiscal year.

This bill would extend the applicability of those provisions to the 2023–24 fiscal year, as provided.

Existing law authorizes a school district or charter school to maintain a transitional kindergarten program. Existing law requires a school district or a charter school, as a condition of receipt of apportionment for pupils in a transitional kindergarten program, to ensure that, among other things, a child who will have their 5th birthday between September 2 and specified dates, depending on the school year, be admitted to a transitional kindergarten program, as provided. Existing law authorizes, in any school year, a school district or charter school to, at any time during a school year, admit a child to a transitional kindergarten program who will have their 5th birthday after the applicable cutoff date but during that same school year, as provided.

This bill would delete the above-described condition that the child admitted to a transitional kindergarten program during a school year have their 5th birthday during
that same school year, as provided, and would instead require that the child have their
5th birthday before the first day of instruction in the subsequent school year.

Existing law requires, as a condition of receipt of apportionment for pupils in a
transitional kindergarten program, a school district or charter school to do certain
things, including, among others, maintain certain class sizes and certain adult-to-pupil
ratios.

This bill would require, as a condition of receipt of apportionment for pupils in a
transitional kindergarten program, a school district or charter school to ensure that,
commencing with the 2028–29 school year, each adult assigned to a transitional
kindergarten classroom meets at least one of a list of specified requirements.

(23) Existing law authorizes the governing board of a school district or a county
board of education to request the state board to waive all or part of specified education
laws or regulations adopted by the state board, as provided, with exceptions. Existing
law establishes provisions relating to transitional kindergarten and kindergarten
admission.

This bill would prohibit the state board from waiving all or part of certain laws
relating to kindergarten and transitional kindergarten admission.

(24) Existing law authorizes a public or private elementary or secondary school
to determine whether or not to make emergency naloxone hydrochloride or another
opioid antagonist and trained personnel available at its school, and to designate one or
more volunteers to receive related training to address an opioid overdose, as specified.

Commencing with the 2023–24 fiscal year, and for each fiscal year thereafter,
this bill would appropriate $3,500,000 from the General Fund to the State Department
of Education for allocation to county offices of education for the purpose of purchasing
and maintaining a sufficient stock of emergency opioid antagonists for school districts
and charter schools within their jurisdiction to maintain a minimum of two units at
each middle school, junior high school, high school, and adult school schoolsite, as
provided. The bill would authorize the department to allocate up to $350,000 of those
funds to county offices of education for administrative costs, as provided. The bill
would require, as a condition of receipt of these funds, county offices of education to,
among other things, coordinate the purchase of and maintain a stock of emergency
opioid antagonists, as provided.

(25) Existing law requires a school district or county superintendent of schools
maintaining kindergarten or any grades 1 to 12, inclusive, to provide 2 school meals
free of charge during each schoolday to each pupil who requests a meal without
consideration of the pupil’s eligibility for a federally funded free or reduced-price meal,
as provided. Existing law requires the department to reimburse local educational
agencies that participate in the federal School Breakfast Program and National School
Lunch Program for all nonreimbursed expenses accrued in providing United States
Department of Agriculture reimbursable meals to pupils, as provided.

This bill would instead require the State Department of Education to provide
state meal reimbursement to school districts, county offices of education, and charter
schools that participate in, and meet the requirements of, the federal School Breakfast
Program and National School Lunch Program, and any applicable state laws or
regulations, for reduced-price and paid meals served to pupils, as provided.
(26) Existing law requires a local educational agency to exempt an individual with exceptional needs from all coursework and other requirements who satisfies specified eligibility criteria, as provided. This bill would, among other things, instead specify that the exemption applies to an individual with exceptional needs who entered the 9th grade in the 2022–23 school year or later and would revise the eligibility criteria for an alternative diploma pathway, as provided.

(27) Existing law requires the Student Aid Commission and the department to facilitate the completion of the Free Application for Federal Student Aid and the form used for purposes of the California Dream Act, in a specified manner. This bill would require the commission to provide the California College Guidance Initiative with the discrete data necessary to inform the educator reports available through a specified internet website so that educators can ensure that each individual pupil has successfully completed and submitted their Free Application for Federal Student Aid or California Dream Act Application.

(28) Existing law requires the governing board of a school district and the governing body of a charter school, as appropriate, to ensure that each of its pupils receives information on how to properly complete and submit the Free Application for Federal Student Aid or the California Dream Act Application, as appropriate. This bill would, among other things, require the governing board of a school district and the governing body of a charter school to direct all 11th grade pupils to, and ensure that all 11th grade pupils have completed, specified financial aid lessons, as provided. By imposing a new duty on school districts and charter schools, the bill would impose a state-mandated local program.

(29) Existing law requires the Superintendent to issue a California high school equivalency certificate and an official score report, or an official score report only, to any person who has not completed high school and who meets specified requirements, including taking all or a portion of a high school equivalency test. Existing law authorizes the Superintendent to charge a one-time fee, not exceeding $20 per person, to be submitted by an examinee when registering for the test, as provided. This bill would eliminate the $20-per-person cap on that fee.

(30) Existing law requires the state board to, on or before March 31, 2014, adopt a template for a local control and accountability plan (LCAP) and an annual update to the LCAP for use by school districts, county boards of education, and charter schools. Existing law, on or before January 31, 2022, requires the template adopted by the state board to require the inclusion of certain information, including, among other things, a summary of the stakeholder engagement process, as provided. This bill would revise and recast the information required to be included to, among other things, require a summary of the stakeholder engagement process, including stakeholders at schools generating Local Control Funding Formula Equity Multiplier funding, as specified. Existing law requires the state board to include instructions for school districts, county offices of education, and charter schools to complete the LCAP and annual update to the LCAP, as specified. This bill would revise and recast provisions involving the contents of these instructions to, among other things, require these instructions to specify that school districts, county offices of education, and charter schools are required to include certain
focused goals in the LCAP when a school or pupil group within a local educational agency, or a pupil group within a school, received the lowest performance level on one or more state indicators on the California School Dashboard or a school within a local educational agency receives Local Control Funding Formula Equity Multiplier funding, as provided. By creating new requirements involving the template used by local educational agencies, the bill would impose a state-mandated local program.

(31) Existing law requires each school district, county office of education, and charter school, on or before July 1, 2019, and each year thereafter, to develop a summary document known as the local control funding formula budget overview for parents.

Existing law, on or before July 1, 2015, and each year thereafter, requires the governing body of a charter school to hold a public hearing to adopt an LCAP using a template adopted by the state board. Existing law requires the governing body of a charter school to update the goals and annual actions to achieve those goals identified in the charter petition, as provided, using the template for the LCAP and annual update to the LCAP adopted by the state board, as provided.

This bill would require a charter school to present a report on the annual update to the LCAP and the local control funding formula budget overview for parents on or before February 28 of each year at a regularly scheduled meeting of the governing body of the charter school, as provided.

Existing law requires, before a governing board of a school district or a county board of education considers the adoption of an LCAP or an annual update to the plan, certain things to occur, including that the superintendent of the school district or the county superintendent of schools present the LCAP or annual update to the LCAP to the parent advisory committee for review and comment, as provided.

This bill would additionally require the superintendent of a school district or the county superintendent of schools, before a governing board of a school district or a county board of education considers the adoption of an LCAP or an annual update to the plan, to present a report on the annual update to the LCAP and the local control funding formula budget overview for parents on or before February 28 of each year at a regularly scheduled meeting of the governing board of the school district or the county board of education, as specified.

By requiring local educational agencies and officials to present this new report on or before February 28 of each year, the bill would impose a state-mandated local program.

(32) Existing law requires the single multiple measures public school accountability system authorized by the provisions requiring the state board to adopt evaluation rubrics to measure the overall performance of numerically significant pupil subgroups in schools, including charter schools, school districts, and county offices of education, as provided. Existing law includes within these numerically significant pupil subgroups, among others, English learners.

This bill would include English learners and, separately, long-term English learners for this purpose. To the extent this would create new duties for local educational agencies, the bill would constitute a state-mandated local program.

(33) Existing law requires the state board to, on or before October 1, 2016, adopt evaluation rubrics for certain purposes, including, among others, to assist a school district, county office of education, or charter school in evaluating its strengths, weaknesses, and areas that require improvement. Existing law requires the State
Department of Education, in collaboration with, and subject to the approval of, the executive director of the state board, to develop and maintain the California School Dashboard, a web-based system for publicly reporting performance data on the state and local indicators included in the evaluation rubrics.

This bill would require the public reporting of performance data on state and local indicators via the web-based system to be completed on or before certain dates for the prior school year and would require timelines associated with the collection of data through the California Longitudinal Pupil Achievement Data System to be adjusted to support these public reporting dates, as specified. To the extent this would create new duties for local educational agencies, the bill would constitute a state-mandated local program.

(34) Existing law requires the superintendent of a school district to prominently post on the homepage of the school district’s internet website any LCAP approved by the governing board of the school district, as specified.

This bill would require the superintendent of a school district to prominently post on the homepage of the school district’s internet website any LCAP approved by the governing board of the school district and the county superintendent of schools, as specified. By creating new duties for superintendents of school districts, the bill would impose a state-mandated local program.

Existing law requires a county superintendent of schools to prominently post on the homepage of the county office of education’s internet website any LCAP approved by the county board of education, as specified.

This bill would require a county superintendent of schools to prominently post on the homepage of the county office of education’s internet website any LCAP approved by the county board of education and the Superintendent of Public Instruction, as specified. By creating new duties for county superintendents, the bill would impose a state-mandated local program.

(35) Existing law, beginning with the 2018–19 fiscal year and in each fiscal year thereafter, requires a county superintendent of schools to prepare a summary of how the county superintendent plans to support school districts and schools within the county in implementing LCAPs and to present the summary to the county board of education. Existing law, commencing with the 2019–20 fiscal year, and in each fiscal year thereafter, requires the county superintendent of schools to submit the summary with its LCAP. Under existing law, the above-mentioned requirements do not apply to a county superintendent of schools with jurisdiction over a single school district.

This bill would instead apply those provisions to a county superintendent of schools with jurisdiction over a single school district. By creating new requirements for a county superintendent of schools with jurisdiction over a single school district, the bill would impose a state-mandated local program.

(36) Existing law requires the county superintendent of schools to approve an LCAP or annual update to an LCAP adopted by the governing board of a school district, and requires the Superintendent of Public Instruction to approve an LCAP or annual update to an LCAP adopted by the county board of education, if specified determinations are made, including, among other things, that the plan or annual update adheres to and follows any instructions or directions for completing the template adopted by the state board.
This bill would require school districts and county offices of education that meet specified criteria to include in the LCAP or annual update to an LCAP the actions and services that implement the work related to technical assistance for improving the outcomes of the pupil group or groups that lead to the school district or county office of education to meet the specified criteria. To the extent the bill would impose additional duties on school districts and county offices of education, the bill would impose a state-mandated local program.

(37) Existing law requires a county superintendent of schools, if the governing board of a school district requests technical assistance, if the county superintendent of schools does not approve an LCAP or annual update to the LCAP approved by a governing board of a school district, or for any school district for which one or more specified pupil subgroups meets certain performance criteria, to provide technical assistance, as provided. This bill would require the county superintendent of schools, for any school district for which one or more specified pupil subgroups meets the certain performance criteria, to instead provide technical assistance for a minimum of 2 years, as provided. The bill would require the county superintendent of schools to additionally provide technical assistance for any school district that fails to submit specified data to the department, as provided. The bill would require, for any school district that meets the certain performance criteria for 3 or more consecutive years, the school district’s geographic lead agency, in collaboration with the county superintendent of schools, to provide technical assistance to the school district, as provided. By creating new duties for county superintendents of schools, the bill would impose a state-mandated local program.

(38) Existing law requires the Superintendent of Public Instruction, if the Superintendent does not approve an LCAP or annual update to the LCAP approved by a county board of education, if the county board of education requests technical assistance, or for any county office of education for which one or more of specified pupil subgroups meets certain performance criteria, to provide technical assistance, as provided. This bill would require the Superintendent, for any county office of education for which one or more specified pupil subgroups meets the certain performance criteria, to instead provide technical assistance for a minimum of 2 years, as provided. The bill would require the Superintendent to additionally provide technical assistance for any county office of education that fails to submit specified data to the department, as provided.

(39) Existing law establishes the California Collaborative for Educational Excellence for the purpose of advising and assisting school districts, county superintendents of schools, and charter schools in achieving the goals set forth in an LCAP.

The bill would require, by March 1, 2024, the California Collaborative for Educational Excellence and the department to select, subject to approval by the executive director of the state board, local educational agencies, or a consortium of local educational agencies, to serve as Equity Leads within the system of support, as provided. The bill would prescribe the process for selecting Equity Leads and would require the Equity Leads selected to demonstrate a willingness and capacity to, among other things, develop and disseminate resources on effective practices for analyzing
programs, identifying barriers and opportunities, and implementing actions and services to meet the identified needs of all pupils, including by addressing racial disparities. The bill would require Equity Leads to have certain responsibilities, including, among others, to support the work of local educational agencies, prioritizing those with schools receiving Local Control Funding Formula Equity Multiplier funding, as specified, in developing and implementing programs and supports that address racial disparities in opportunities and academic outcomes. The bill would, commencing with the 2023–24 fiscal year, appropriate an unspecified sum each fiscal year from the General Fund to the department to be awarded to local educational agencies serving as Equity Leads, as specified.

(40) Existing law requires a school district, county office of education, or charter school that requests the advice and assistance of the California Collaborative for Educational Excellence to reimburse the California Collaborative for Educational Excellence for the cost of those services pursuant to authority provided in the annual Budget Act.

This bill would instead provide that only a school district, county office of education, or charter school that is eligible for certain technical assistance may request the advice and assistance of the California Collaborative for Educational Excellence, as provided. The bill would additionally authorize the County Office Fiscal Crisis and Management Assistance Team to request the advice or assistance of the California Collaborative for Educational Excellence and would require the County Office Fiscal Crisis and Management Assistance Team to reimburse the California Collaborative for Educational Excellence for the cost of those services pursuant to authority provided in the annual Budget Act, as provided.

(41) Existing law authorizes the Superintendent of Public Instruction, subject to the approval of the state board, to identify county offices of education and school districts in need of intervention if the county office of education or school district, in 3 out of 4 consecutive school years, meets specified criteria, as applicable, and the California Collaborative for Educational Excellence has provided advice and assistance to the county office of education or school district, as provided. Existing law authorizes the Superintendent, in those cases where a county office of education or school district has been identified as needing intervention to, among other things, make changes to the LCAP and develop and impose a budget revision.

This bill would revise and recast those provisions by creating 2 separate intervention processes, as provided. The bill would first require the California Collaborative for Educational Excellence, in consultation with certain providers of technical assistance and the school district or the county office of education, as applicable, to determine if assistance from the California Collaborative for Educational Excellence is necessary, as provided. The bill would then authorize the Superintendent, subject to the approval of the state board, to identify county offices of education and school districts in need of intervention if the California Collaborative for Educational Excellence determines that the county office of education or school district, as applicable, has failed, or is unable, to implement the recommendations of the California Collaborative for Educational Excellence or that the inadequate performance of the county office of education or school district, based upon a specified rubric, as applicable, is either so persistent or acute as to require intervention by the Superintendent. By creating new duties for school districts and county offices of education in relation to
their collaboration with the California Collaborative for Educational Excellence regarding assistance for these purposes, the bill would impose a state-mandated local program.

(42) Existing law establishes the Bilingual Teacher Professional Development Program, administered by the department in consultation with the Commission on Teacher Credentialing, for teachers seeking to provide instruction in bilingual and multilingual settings. Existing law provides that the purpose of the grant program is to ensure that California can meet the demand for bilingual teachers necessary for the implementation of dual language and other bilingual education programs, as authorized by the California Education for a Global Economy Initiative, and to ensure California is able to meet the demand in preparing bilingual education teachers. Existing law requires the department to issue a minimum of 5 grants to applicants through a competitive process and to allocate grant funding to eligible local educational agencies for purposes of providing professional development services to teachers or paraprofessionals. Existing law requires grant recipients to provide a final report on specified information related to the program to the department by January 1, 2022.

This bill would provide that it is also the purpose of the grant program to increase bilingual teachers in multiple languages to staff bilingual classrooms, such as Spanish, Vietnamese, Mandarin, Cantonese, Tagalog, and Arabic classrooms, and other languages, as represented in instructional programs. The bill would require the department to meet quarterly with grant recipients to share promising practices and resources, and to resolve issues of implementation. The bill would, for the 2023–24 fiscal year, appropriate $20,000,000 from the General Fund to the Superintendent for purposes of the program, to be available for grants totaling $4,000,000 each fiscal year, from the 2023–24 fiscal year to the 2027–28 fiscal year, inclusive, and would require grant recipients of those funds to provide, by July 1, 2026, a preliminary report, and, by January 1, 2029, a final report, of specified information to the department, as provided.

(43) Existing law requires the Superintendent to develop program guidelines for dyslexia to be used to assist regular education teachers, special education teachers, and parents to identify and assess pupils with dyslexia, as provided.

This bill would require the state board to appoint an independent panel of experts on or before January 31, 2024, to create an approved list of screening instruments for assessing pupils in kindergarten and grades 1 and 2 for risk of reading difficulties. The bill would require the panel to approve the list of screening instruments on or before December 31, 2024, and would require the governing board or body of a local educational agency serving pupils in kindergarten or grades 1 or 2 to adopt one or more screening instruments from the list on or before June 30, 2025. The bill would require a local educational agency serving pupils in kindergarten or grades 1 or 2 to, commencing no later than the 2025–26 school year, and annually thereafter, assess each pupil in those grades using the adopted screening instrument, except as provided. If a pupil is identified as being at risk of having reading difficulties after being screened pursuant to these provisions, the bill would require the local educational agency to provide the pupil with supports and services, as provided. By imposing additional requirements on local educational agencies, this bill would create a state-mandated local program. The bill would appropriate $1,000,000 to the Superintendent for the
state board to appoint the panel for the purpose of creating an approved list of screening instruments.

(44) Existing law requires each special education local plan area to administer local plans, as provided. Existing law prohibits the governing board of a school district, from July 1, 2020, to July 1, 2024, inclusive, from electing to submit a local plan for the education of all individuals with exceptional needs residing in the district for the purpose of creating a single district special education local plan area, as provided. This bill would extend that prohibition by 2 years until July 1, 2026. The bill would require the Superintendent to post all local plans submitted by each special education local plan area on the department’s internet website.

Existing law requires, commencing with the 2023–24 fiscal year and for each fiscal year thereafter, the Superintendent to determine the base grant funding for each special education local plan area, as provided. This bill would require, for the 2023–24 fiscal year, each special education local plan area to, at minimum, allocate special education funding to all of its member local educational agencies equal to the total sum of base grant funding allocated to all of its member local educational agencies in the 2022–23 fiscal year multiplied by the sum of one plus a certain inflation factor for the 2023–24 fiscal year, and then multiplied by the sum of one plus the percent change in funded average daily attendance of its member local educational agencies from the 2022–23 fiscal year to the 2023–24 fiscal year, as provided. To the extent this imposes additional duties on a special education local plan area, this bill would impose a state-mandated local program.

(45) Existing law states the intent of the Legislature to provide a system of assessments of pupils that has the primary purposes of (A) assisting teachers, administrators, and pupils and their parents, (B) improving teaching and learning, and (C) promoting high-quality teaching and learning using a variety of assessment approaches and item types. Existing law requires the department to acquire, and offer at no cost to local educational agencies, certain interim assessment tools for pupils in kindergarten and any of grades 1 to 12, inclusive, and requires those interim assessments to be designed to provide timely feedback to teachers to improve instruction, for communication with pupils’ parents or guardians, and for identifying teachers’ professional development goals. Existing law prohibits the results of these interim assessments from being used for any high-stakes purpose, including, among other specified uses, school staff evaluations or pupil grade promotion or retention.

This bill would apply those purposes and that prohibition instead to any interim assessments offered by the department to local educational agencies.

(46) Existing law establishes the California Longitudinal Pupil Achievement Data System (CalPADS), which is maintained by the department and consists of pupil data from elementary and secondary schools, as specified, relating to, among other things, demographic, program participation, enrollment, and statewide assessments. Existing law requires the system to be used to accomplish specified goals and requires local educational agencies, in order to comply with federal law, to retain individual pupil records for each test taker, as provided.

This bill would require local educational agencies, in order to accomplish those specified goals and to comply with the requirement to retain individual pupil records for each test taker, to submit data according to the processes and timelines established...
by the department, as provided. By imposing new duties on local educational agencies, 
the bill would impose a state-mandated local program.

(47) Existing law authorizes the California College Guidance Initiative (CCGI) 
to provide its services to all California school districts. Existing law requires the 
department to ensure that the notifications provided by local educational agencies, as 
required by the federal Family Educational Rights and Privacy Act of 1974, include 
appropriate content related to how CalPADS and CCGI data will be used, as provided. 
This bill would revise and recast those provisions by, among other things, 
authorizing CCGI to provide its services to all local educational agencies and requiring 
the department to instead notify local educational agencies of the additional use of 
CalPADS data and advise local educational agencies to include in their annual parent 
notifications, as required by the federal Family Educational Rights and Privacy Act of 
1974, information about CalPADS and CCGI data, as provided.

(48) The Budget Act of 2021, among other things, appropriates $22,000,000 to 
the Commission on Teacher Credentialing for the preparation and licensing of teachers. 
Of that amount, $2,000,000 is required to be available on a one-time basis for grants 
to teacher preparation programs to update program curriculum and course offerings to 
align with the common trunk Teacher Performance Expectations and the updated 
Education Specialist Teacher Performance Expectations and to include pedagogy on 
dyslexia.

This bill would extend the encumbrance period for the above-described 
$2,000,000 appropriation to be available through June 30, 2024, thereby making an 
appropriation.

(49) Existing law appropriates $15,000,000 from the General Fund to the 
Superintendent for the department and the California Collaborative for Educational 
Excellence, with approval from the executive director of the state board, to designate 
a county office of education to identify and curate a repository of high-quality open 
educational resources for use by local educational agencies. Existing law makes these 
funds available for encumbrance until June 30, 2024.

This bill would extend the encumbrance period for that appropriation to June 
30, 2025, thereby making an appropriation.

(50) The Budget Act of 2022, among other things, appropriates $117,478,000 
from the General Fund to the department for support of the department in relation to 
specified programs. Existing law specifies that of those funds, $1,200,000 is provided 
on a one-time basis for litigation costs related to the COVID-19 pandemic.

This bill would extend the availability of that $1,200,000 for litigation costs 
related to the COVID-19 pandemic for encumbrance or expenditure until June 30, 
2024, thereby making an appropriation.

(51) The Budget Act of 2022, among other things, appropriates $900,000 from 
the Driver Training Penalty Assessment Fund to the department in the 2022–23 fiscal 
year for schoolbus driver instructor training and makes this funding available for 
encumbrance until June 30, 2023.

This bill would extend the encumbrance period for that appropriation to June 
30, 2024, thereby making an appropriation.

(52) The Budget Act of 2022, among other things, appropriates $136,701,000 
to the department from the Federal Trust Fund for curriculum services.
Of that amount, existing law requires $1,000,000 in federal Individuals with Disabilities Education Act funds to be available on a one-time basis to identify and develop alternative coursework and performance tasks, as specified, and authorizes $100,000 of that sub-amount to be used by the department, in consultation with the executive director of the state board, to convene state and national experts to collect and develop alternate coursework and performance task resources available for educators.

Of that amount, existing law requires $700,000 in federal Individuals with Disabilities Education Act funds to be available on a one-time basis for the State Department of Education, in consultation with the State Department of Developmental Services, to develop parent-friendly resources around the transition services, as specified.

This bill would extend the encumbrance period for the above-described $1,000,000 and $700,000 allocations to be available through June 30, 2024, and June 30, 2026, respectively, thereby making an appropriation.

(53) The Budget Act of 2022, among other things, appropriates $280,988,000 from the Federal Trust Fund to the State Department of Education in the 2022–23 fiscal year for migrant education.

This bill would increase the amount of that appropriation by $654,000 to instead be $281,642,000, thereby making an appropriation.

(54) The Budget Act of 2022, among other things, appropriates $4,400,000 to the department to apportion to the Riverside County Office of Education to develop collaborative partnerships with regional county offices of education to support local educational agency utilization of the College and Career Guidance Initiative’s statewide college and career planning tools.

This bill would additionally authorize those partnerships to include higher education offices, as provided. By expanding the allowable uses of an existing appropriation, the bill would make an appropriation.

(55) Existing law appropriates $413,000,000 from the General Fund to the Superintendent for apportionment to certain charter schools in the 2022–23 fiscal year.

(56) Existing law, for the 2022–23 fiscal year, appropriates $1,300,000,000 from the General Fund in the 2021–22 fiscal year to the State Allocation Board for new construction and modernization projects under the Leroy F. Green School Facilities Act of 1998, as provided.

This bill would, for the 2023–24 fiscal year, appropriate $1,960,500,000 from the General Fund to the State Allocation Board for new construction and modernization projects under the Leroy F. Green School Facilities Act of 1998, as provided. The bill would authorize the Department of General Services to charge against either of those appropriations, the administrative costs, not to exceed $15,000,000, incurred to implement the appropriation. By expanding the authorized uses of the $1,300,000,000 appropriation referenced above, the bill would make an appropriation.

(57) Existing law appropriates $600,000,000 from the General Fund to the State Department of Education for allocation to certain school districts, county offices of education, and charter schools to expend on kitchen infrastructure upgrades that will increase a school’s capacity to prepare meals served through a federal school meal
program, as defined, including for freshly prepared onsite meals, as defined, to serve fresh and nutritious school meals using minimally processed, locally grown, and sustainable food, or for expanding meal options for pupils with restricted diets, as specified. Existing law authorizes each eligible local educational agency to receive a base allocation of $100,000, and then after those allocations are made, requires 50% of the remaining funds to be allocated proportionally to local educational agencies based on the number of reimbursable meals served in October 2021 by the local educational agency.

This bill, after the base allocations are made, but before any other allocation of remaining funds, would instead require $15,000,000 to be available to local educational agencies for the purchase and installation of a commercial dishwasher, as provided. By expanding the uses of the above-described appropriation, the bill would make an appropriation. The bill would, among other things, revise the definition of freshly prepared onsite meals, as specified, and would authorize the department to revise that definition as necessary to implement these provisions, consistent with the intent of the provisions.

(58) Existing law appropriates $100,000,000 from the General Fund to the State Department of Education for allocation, in consultation with the Department of Food and Agriculture, to local educational agencies to expend on implementing specified school food best practices as part of reimbursable meals served through the federal National School Lunch Program and federal School Breakfast Program, as provided. This bill would revise the list of specified school best practices, as provided, that local educational agencies are authorized to expend those funds on, thereby making an appropriation, and would make a corresponding change to the eligibility criteria that the State Department of Education, in consultation with the Department of Food and Agriculture, is required to develop.

(59) Existing law appropriates $3,560,885,000 from the General Fund to the State Department of Education for the 2022–23 fiscal year to establish the Arts, Music, and Instructional Materials Discretionary Block Grant, as specified.

Existing law also requires the Superintendent to provide a comprehensive report to the Department of Finance, State Board of Education, and the appropriate policy and fiscal committees of both houses of the Legislature on the data submitted by local educational agencies.
This bill would revise and recast the reporting provisions by, among other things, requiring the recipient local educational agencies and the Superintendent to submit interim reports before the final reports, as provided. The bill would also require the Superintendent to submit the interim and final reports submitted by recipient local educational agencies to a certain selected entity to conduct an independent evaluation, as provided. The bill would prohibit the above-described funds from being used to support the salaries of existing literacy coaches and reading specialists.

This bill would appropriate $250,000,000 from the General Fund to the Superintendent to augment the Literacy Coaches and Reading Specialists Grant Program to allocate moneys to eligible schoolsites, as defined, that did not receive moneys under the initial program to develop school literacy programs, employ and train literacy coaches and reading and literacy specialists, and develop and implement interventions for pupils in need of targeted literacy support.

The bill would allocate funds to local educational agencies and state special schools based on the proportionate enrollment of Grade 11 pupils in the 2022–23 academic year, as provided, and would require local educational agencies and state special schools to provide all high school seniors in the 2023–24 academic year with access to arts and cultural enrichment experiences outside of normal school offerings, as provided.

(62) This bill would, on or before June 30, 2024, appropriate an amount to be determined by the Director of Finance from the General Fund to the Superintendent in augmentation of a certain item in the Budget Act of 2023. The bill would require, on or before June 30, 2024, the Director of Finance to determine if the revenues distributed to local educational agencies for special education programs from successor agencies exceed the estimated amount reflected in the Budget Act of 2023 and, if so, would require the Director of Finance to reduce the specified appropriation in the Budget Act of 2023 by the amount of that excess.

(63) This bill would appropriate $1,000,000 from the General Fund to the department to create, in consultation with the executive director of the state board, a Literacy Roadmap to help educators apply the state’s curriculum framework to classroom instruction, navigate the resources and professional development opportunities available to implement effective literacy instruction, and improve literacy outcomes for all pupils with a focus on equity, as provided.

campus and to make these best practices available on the department’s internet website for use by local educational agencies.

This bill would appropriate $7,000,000 from the General Fund to the Superintendent to be made available to support local educational agencies electing to implement the restorative justice best practices, as specified.

(68) This bill also would delete obsolete provisions, make conforming changes, and make technical changes.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

(70) Certain funds appropriated by this bill would be applied toward the minimum funding requirements for school districts and community college districts imposed by Section 8 of Article XVI of the California Constitution.

(71) This bill would declare that it is to take effect immediately as a bill providing for appropriations related to the Budget Bill.
